ROYAL AIR FORCE REPORTED TO HAVE BEATEN OFF POWERFUL ATTACK ON COAST SHIPPING

Cairo, Egypt, Aug. 8.—(P)—The Italian columns driving into British Somaliland from Ethiopia halted after their capture of Oadweina and Hargeisa, "as anticipated," a British communiqué reported tonight.

Air reconnaissance over those towns in the western part of the protectorate "showed little movement," the communiqué said.

It reported continued movement of Italian forces, particularly "motorized transport," in the Libyan-Egyptian border region, "the western desert," where the British expect a large-scale Italian offensive shortly.

Italian armies in Libya, fearing intensification of the British naval blockade and faced with dwindling water and war supplies, are expected to launch a grand offensive by mid-August in an attempt to break Britain's stronghold on the north African coast.

The Italian push into British Somaliland, which resulted yesterday in the fall of the port of Zeila, was looked upon here as more or less a move to divert British power to defense of that territory, preliminary to the big push.

Britain bid today for further help from India's famed wealth and vast manpower as Italy menacing the empire's Mediterranean Suez Canal-Red Sea lifeline and the RAF beat off a powerful Nazi air attack on English Channel shipping.

"Free and equal partnership" in the British commonwealth was Britain's promise to her greatest Asiatic possession.

The British said the Nazis lost at least nine planes and the British themselves two as air fighting raged over the channel and the southeastern coast of England for an hour, filling the air with the roar of cannon and chatter of machine guns.

The announcement on the Indian situation, made simultaneously in Commons and in India, said the government was willing to let Indians "devise the framework of a new constitution" at the end of the war in the hope that the distant country's 350,000,000 people, overcoming their own differences, would at last attain "freedom and equality within the British commonwealth" of nations. Britain herself, the statement said, was unwilling to undertake "fundamental constitutional issues" at this time.

The British account of the air battle said at least fifty German bombers and a large number of escorts took part against only a dozen British fighting planes. Sometimes they swooped down to within a thousand feet of the rooftops or sea, rattling the windows of homes and shops. At other times the planes vanished high in the clouds.

The fight opened with a German attack on channel shipping, a phase of Nazi war intended to block off supplies from the embattled Britons.

Along the shore and far inland, watchers thrilled. Once a German fighting plane, picked out of a bomber escort, spun swiftly in flames to the channel.

ITALIANS GAIN A FOOTHOLD IN DESERT WASTES

Rome, Aug. 8.—(P)—Italian occupation of Zeila, westernmost port in British Somaliland, is the first step in a move by the Italians to join British and French Somaliland with Italian Somaliland in the African offensive now under way, a high Fascist authority indicated today.

(British sources in London said today that Britain might give Italy a "cheap victory" in British Somaliland by withdrawing her forces from desert wastes considered not worth defending.)

The capture of Zeila, near the frontier between British and French Somaliland, was described officially as of great strategic importance.

Capture of the port was announced in today's High Command communiqué, which said Zeila had been taken after a three-day march from Ethiopia, which is 30 miles from Zeila at the nearest point.

An authoritative Fascist source announced occupation of Zeila had been carried out by Italian native troops from Ethiopia under command of the Duke of Aosta, viceroy of Ethiopia.

Capture of this port, just south of Jibuti, port in French Somaliland, was said by Italians here to be the first step in incorporating French and British Somaliland into Italian East Africa.

Attainment of this goal would give Italy a solid block of territory with a 2,500-mile continuous (Turn to Page Fifteen)

STORM DAMAGE HIGH IN TEXAS

Port Arthur, Tex., Aug. 8.—(P)—A tropical hurricane blew itself out today after killing at least one person, injuring 10 and damaging property in the Sabine area of Texas and Louisiana.

Scores were marooned as 75 mile winds roared into Texas from the east and struck Port Arthur, Orange and Beaumont.

Houses were unroofed, trees uprooted and advertising signs sent flying through the air. Six persons were injured at Port Arthur and three at Beaumont where damage to windows and small buildings was widespread.

Unofficially, damage was estimated at Port Arthur at \$100,000. Jefferson County Agent J. F.ombs said damage to the rice crop in that section may reach \$500,000.

The body of Chen Tung Sing, a Chinese, was found in Bayou Barataria at Crown Point, La.

Twenty-two persons on fishing trawlers out of Morgan City, La., were reported of the storm passing inland between Sabine pass and Port Arthur and winds at the peak gusted more than 80 miles an hour.

SUSPENSION LIFTED

Harrisburg, Aug. 8.—(P)—The Liquor Control Board today lifted the suspension of the liquor license of the William Penn Hotel, Pittsburgh, which was to have been effective tomorrow.

The board a week ago ordered the license suspended for 30 days on charges of sales to minors. A spokesman said the board accepted an "offer in compromise" for payment of \$300 representing \$10 for each day of the ordered suspension.

Possibility of Taking War Debt Payments Out of Frozen French Funds Is Considered

Washington, Aug. 8.—(P)—Secretary Morgenthau disclosed today that the United States was considering the possibility of taking World War debt payments out of frozen French funds in this country.

When the subject of war debts was raised at his press conference, the treasury chief said that before French funds are released he wants to see "what happens to American investments and debts over there."

The treasury head had referred many times to the possibility of offsetting American business and other losses in the invaded European countries against the funds of those countries being held here, but formerly he had given no reply to inquiries about World War indebtedness.

France alone owes this country about \$4,000,000,000 from the last war.

Asked whether the freezing regulations, imposed upon the funds belonging to invaded nations and their peoples, also applied to Germany, Morgenthau replied:

"No. Any amount of money can be sent to Germany, and there is nothing we can do about it. It's silly, but we are at peace with Germany and cannot do anything about its funds."

A reporter remarked that this country also was at peace with France but had frozen her funds. Morgenthau explained that what he meant was that freezing orders applied only to invaded countries, rather than ones at war, because when a country was invaded a question arose whether its citizens tried to get money from this country on their own initiative or under "duress" of the invaders.

Secretary of Labor and Industry Announces That 90,000 Unemployed Found Work In Industries During Past Seven Months

Associated Press Staff Writer
Harrisburg, Aug. 8.—(P)—Lewis G. Hines, state secretary of labor and industry, announced today that 90,000 unemployed found work in Pennsylvania industries during the past seven months and predicted the national defense program will open jobs for 200,000 more.

The gain occurred during a "normal" upward business trend, the secretary reported.

He estimated in a report that approximately 1,000,000 persons may be drawn from the unemployed this year as business feels the stimulus of defense orders.

"Anticipating further expansion of this placement activity," Hines said, the state employment service "is engaged in a widespread recruiting and training program."

Persistent and Apparently Well-Founded Rumors That Postmaster General Would Give Up Post in Administration to Head Syndicate Buying the New York Yankee Baseball Club Believed Confirmed Announcement

MUTUAL ADMIRATION LETTERS EXCHANGED

Hyde Park, N. Y., Aug. 8.—(P)—President Roosevelt accepted the resignation of James A. Farley as postmaster general today. It is effective August 31. The president said their friendship would always continue.

Farley resigned his political post after the Chicago convention in July, giving as his reason a desire to return to private life. There have been persistent and apparently well-founded reports that he would head a syndicate buying the New York Yankees baseball club.

Mr. Roosevelt's announcement that Farley was leaving the cabinet position he has held for almost eight years preceded by only a few hours a conference of the chief executive scheduled with two other cabinet members—Secretaries Wallace and Hopkins.

In Chicago, where Farley indicated he was not too well acquainted with what was going on in the camp of the third level for Roosevelt adherents, Hopkins and Wallace were in the van of that activity.

Wallace emerged from the convention with the vice presidential nomination, and the conference today will give him an opportunity to talk over campaign strategy with the president.

BERMUDA PLANS A WELCOME FOR THE WINDSORS

Aboard the American Export liner Excalibur, Aug. 8.—(P)—The Duke of Windsor treated the crew to beer this morning upon sight of Hamilton, Bermuda, where the Duke and his Duchess will leave the ship.

Hamilton, Bermuda, Aug. 8.—(P)—The ordinarily placid life of this British island colony will be thrown only slightly out of order by the arrival today of the Duke and Duchess of Windsor.

The lack of pagantry was due partially to the fact that, while the Duke is en route to take over as post of governor and commander-in-chief of the Bahamas, this is an unofficial visit.

Still, the city of Hamilton was decked in flags, and the regular Thursday half-holiday gave Bermudians a chance to see the Duke and his American wife on their way from the Royal Yacht Club building in Hamilton to government house, where they will live until they leave for the Bahamas.

Pittsburgh, Aug. 8.—(P)—Twelve-year-old Andrew Pokop got the worst of it when his bicycle crashed into an incoming plane on a Bettis airport runway.

Airport attendants said the boy apparently rode directly into the plane's whirling propeller. No one saw him drive onto the runway.

Further Business Gains in July Reported By Hopkins With Unfilled Orders Growing

Washington, Aug. 8.—(P)—Business continued to improve in July, Secretary of Commerce Hopkins said today, but he described the gain as "moderate, compared with the sharp rise in June."

The general situation, he said, "is well supported at this time by a large volume of unfilled orders and active consumer purchasing."

"Although inventories are not much below the peak to which they were pushed in March by last fall's buying wave," he added, "there is no further accumulation of any significance taking place in total holdings at this time."

Failure of commodity and security prices to respond to the increased volume of trade was traced by Hopkins to the "international political and military situation."

He reported a downward trend in prices of "sensitive commodities."

But the status of prices is not due to "any fundamental weakness in domestic economic conditions," he said, "and is no sign that business recovery is running out."

"Any expansion of employment and income resulting from the national defense program will push per capita consumption to new record levels," Hopkins observed.

Industrial production was reported to be higher in July than in June, "allowing for seasonal adjustments, although there was a leveling off of manufacturing volumes during the month."

With Both Advocates And Opponents Predicting Passage Agreement Is Reached to Vote During Afternoon Session On Legislation for Calling Out National Guard and Officers and Enlisted Reserves for Training

NOT A REAL TEST OF CONSCRIPTION ISSUE

Washington, Aug. 8.—(P)—The Senate agreed today to vote by 4 P. M. Eastern Standard Time, on legislation for calling out the National Guard and officers and enlisted reserves for training. Both advocates and opponents predicted passage.

Disposal of the guard bill will clear the way for debate on the Burke-Wadsworth Compulsory training bill, which could be taken up immediately.

The House military committee postponed a session on the compulsory conscription bill, chairman May (D-Ky.) explaining that no further consideration would be given to it until the Senate had acted.

Senate rejection of a proposal to let National Guardsmen resign rather than enter active training pushed the militia mobilization bill to the verge of passage today.

The amendment to give guardsmen and reserves 20 days after the bill's passage in which they could turn in their uniforms failed yesterday 47 to 36. It was offered by Senator Danaher (R-Conn.) who contended that many men had enlisted in the belief that they would not be called to duty outside their own states until congress declared war.

Neither side, however, acknowledged the vote as a clear-cut test of sentiment on the main controversy whether conscription should be ordered to supplement the militia or whether voluntary army enlistments should be sought. Anti-conscription leaders supported Danaher's proposal.

As soon as the guard bill is acted upon, the senate will take up the Burke-Wadsworth conscription measure. A closely-knit group of senators met yesterday in the office of Senator Norris (Ind-Neb) to plan for a "full debate, no compromise fight" against the legislation.

The Senate, with its floor and galleries crowded, heard a continuation yesterday of the heated personal argument against Senators Holt (D-WVa.) and Minton (D-Ind.). Minton had applied the term "slacker" to Holt's family because of its stand against American participation in the World War.

Holt denied that his brother was sent to South America at that time to avoid being drafted.

"I don't know what kind of services he gave to the army," Minton replied, "but everybody in (Turn to Page Fifteen)"

PROBE MYSTERY ON SKY SLEEPER

Nashville, Tenn., Aug. 8.—(P)—American airlines officials expressed belief today that injuries to Rosemary Griffith, 24-year old stewardess, found unconscious when her plane landed at Nashville airport last night, were the result of an accident rather than foul play.

Nashville, Tenn., Aug. 8.—(P)—Federal authorities, local police and officials of American Airlines delved today into mysterious circumstances surrounding the injury to a 24-year-old stewardess found unconscious aboard one of the company's trans-continental sky sleepers shortly before it landed here last night.

Soldiers Participating in First Army Maneuvers Are Using Guns and Large Mortars Made Out of Wood

START SQUAD RUSHES

Lisbon, N. Y., Aug. 8.—(P)—Pennsylvania's National Guardsmen swing today into the rapidly expanding First Army maneuvers but a shortage of equipment handicapped the soldiers in "carrying the fight to the enemy."

Lieutenant Colonel Fred H. Kelley, of Potstown, commanding the 11th Infantry, described the lack of arms as "drastic" and said his regiment began the maneuvers "with no new light machine guns, no new .50 calibre machine guns and no Garand semi-automatic rifles."

The men are drilling with wooden guns and green-painted wooden models of 60 and 81 millimeter mortars.

"We lack also great quantities of motor transportation vehicles," said Colonel Kelley. "Instead of the specified six .37 millimeter anti-tank guns, we now have four old ones entirely unsuitable."

Squad rushes were included in the training provided infantrymen. In this maneuver, a squad runs full speed ahead and at the command each man falls flat on his stomach and puts his rifle in a firing position. Then he gets up, dashes a few yards and repeats. The trick is to fall without getting hurt.

Ogdenburg, N. Y., Aug. 8.—(P)—America's first army, spurred by orders of its commanding officer, accelerated the tempo of northern New York's gigantic training maneuvers today with an unprecedented emphasis on offensive tactics.

Instructed by Lieut. General Hugh A. Drum the main objective of the three and a half weeks of war games is to train the nearly 100,000 troops to be "offensive fighters" and "secure decision by offensive action." Officers swung the smaller units into a program based on "carrying the fight to the enemy."

Members of the commanding staff viewed instructional objectives, disclosed by Drum in nearby Canton, N. Y., last night, as calling for a "streamlining" of the First Army's battle methods with "greatest attention" to initiating operations.

Addressing nearly 11,000 officers and enlisted men in charge of the training, Drum demanded, "before it is too late," avoidance of the "doctrines of the supremacy of the military defensive which have led to the ruin of France and forced England to face so many disasters."

BOY RIDING A BICYCLE COLLIDES WITH PLANE

Pittsburgh, Aug. 8.—(P)—Twelve-year-old Andrew Porkop got the worst of it when his bicycle crashed into an incoming plane on a Bettis airport runway.

Taken to McKeesport hospital, he was reported in critical condition today from a skull fracture and multiple lacerations.

Airport attendants said the boy apparently rode directly into the plane's whirling propeller. No one saw him drive onto the runway.

Further Business Gains in July Reported By Hopkins With Unfilled Orders Growing

Washington, Aug. 8.—(P)—Business continued to improve in July, Secretary of Commerce Hopkins said today, but he described the gain as "moderate, compared with the sharp rise in June."

The general situation, he said, "is well supported at this time by a large volume of unfilled orders and active consumer purchasing."

"Although inventories are not much below the peak to which they were pushed in March by last fall's buying wave," he added, "there is no further accumulation of any significance taking place in total holdings at this time."

Failure of commodity and security prices to respond to the increased volume of trade was

JAMES DECLARES WILLKIE TO MAKE VISIT IN PENN'A

Governor Planning to Accompany Delegation From This State to Hear Acceptance Speech on August 17th At Elwood, Indiana

DISCUSS HATCH ACT

Harrisburg, Aug. 8.—(P)—The possibility that Wendell L. Willkie, Republican nominee for president, would visit Pennsylvania early in September, was disclosed by Governor James, who said, however, that he was uncertain whether it would be a "campaign appearance."

"He'll be here after the soldiers come home," said the governor, referring to the National Guard maneuvers in New York state.

James, unsuccessful as a candidate at the Philadelphia convention, said he had pledged "my whole-hearted support" to Willkie and telephoned him that he would "pitch in" in the fall campaign.

The governor said he probably would accompany a Pennsylvania delegation (Turn to Page Fifteen)

ORGANIZE G. O. P. FOR ROOSEVELT

Harrisburg, Aug. 8.—(P)—Organization of a state-wide Republican group to work for the reelection of President Roosevelt was forecast today by Meredith Meyers, state Democratic chairman.

"We've had offers from many Republicans who have signified they want to work for Roosevelt," Meyers declared. "I don't believe there's a county in the state that doesn't have a lot of Republicans willing to go on record for Roosevelt, just like they did in 1936."

The proposed Republican organization would be used, he said, to offset activities of the Willkie clubs that are enlisting "independent" Democratic voters in Pennsylvania.

"The people who are for Willkie are really people who are against Roosevelt," the chairman asserted. "The people who are for Roosevelt (Turn to Page Fifteen)"

traced by Hopkins to the "international political and military situation." He reported a downward trend in prices of "sensitive commodities."

But the status of prices is not due to "any fundamental weakness in domestic economic conditions," he said, "and is no sign that business recovery is running out."

"Any expansion of employment and income resulting from the national defense program will push per capita consumption to new record levels," Hopkins observed.

Industrial production was reported to be higher in July than in June, "allowing for seasonal adjustments, although there was a leveling off of manufacturing volumes during the month."

ADOPTION IN SENATE FORECAST

With Both Advocates And Opponents Predicting Passage Agreement Is Reached to Vote During Afternoon Session On Legislation for Calling Out National Guard and Officers and Enlisted Reserves for Training

NOT A REAL TEST OF CONSCRIPTION ISSUE

Washington, Aug. 8.—(P)—The Senate agreed today to vote by 4 P. M., Eastern Standard Time, on legislation for calling out the National Guard and officer and enlisted reserves for training. Both advocates and opponents predicted passage.

Disposal of the guard bill will clear the way for debate on the Burke-Wadsworth Compulsory training bill, which could be taken up immediately.

The House military committee postponed a session on the compulsory measure today, chairman May (D-Ky.) explaining that no further consideration would be given to it until the Senate had acted.

Senate rejection of a proposal to let National Guardsmen resign rather than enter active training pushed the militia mobilization bill to the verge of passage today.

"The amendment to give guardsmen and reserves 20 days after the bill's passage in which they could turn in their uniforms failed yesterday 47 to 36. It was offered by Senator Danaher (R-Conn.) who contended that many men had enlisted in the belief that they would not be called to duty outside their own states unless congress declared war."

Neither side, however, acknowledged the vote as a clear-cut test of sentiment on the main controversy—whether conscription should be ordered to supplement the militia or whether voluntary army enlistments should be sought. Anti-conscription leaders supported Danaher's proposal.

As soon as the guard bill is acted upon, the senate will take up the Burke-Wadsworth conscription measure. A closely-knit group of senators met yesterday in the office of Senator Norris (Ind-Neb.) to plan for a "full debate, no compromise fight" against the legislation.

The Senate, with its floor and galleries crowded, heard a continuation yesterday of the heated personal argument against Senators Holt (D-W.Va.) and Minton (D-Ind.). Minton had applied the term "slacker" to Holt's family because of its stand against American participation in the World War.

Holt denied that his brother was sent to South America at that time to avoid being drafted.

"I don't know what kind of service he gave to the army," Minton replied, "but everybody in (Turn to Page Fifteen)"

PROBE MYSTERY ON SKY SLEEPER

Nashville, Tenn., Aug. 8.—(P)—American airlines officials expressed belief today that injuries to Rosamary Griffith, 24-year old stewardess, found unconscious when her plane landed at Nashville airport last night, were the result of an accident rather than foul play.

Nashville, Tenn., Aug. 8.—(P)—Federal authorities, local police and officials of American Airlines delved today into mysterious circumstances surrounding the injury to a 24-year-old stewardess found unconscious aboard one of the company's trans-continental sky sleepers shortly before it landed here last night.

The girl, Miss Rosemary Griffith of New York City, was found by passengers of the west-bound plane unconscious in the baggage compartment of the ship. She was taken to a hospital in a hysterical condition.

Hospital attaches said x-rays disclosed she had swallowed a small key. Before this disclosure investigating officers had conducted a thorough search for the luggage room key, which they said (Turn to Page Fifteen)

False Alarm Leads To Arrest Of Local Resident Last Night

The fire department had enough to do last evening with two calls for high tension wires burning in trees without turning out to satisfy the urge for excitement on the part of a local citizen.

While the department was at 11 Marion street taking care of a burning wire, a telephone call was received at the central station, on "fire." The Super-Market is on fire, a run was made to the corner of Pennsylvania avenue and Liberty street and when no blaze was found the firemen investigated other markets, in case a mistake had been made by the person turning in the call.

Still finding no sign of fire, the matter was reported to the police department and the arrest of John R. Ponsoll, 820 Fifth avenue, west, who is now in the county jail awaiting arraignment on a charge of turning in a false alarm, resulted.

The first call came in at 9:46 o'clock, and after answering this call and the false alarm, the department was again called out at 12:29 when another high tension wire was burning in a tree near 517 Water street.

Hollywood Sights and Sounds

By ROBBIN COONS

HOLLYWOOD — Blanche Yurka really means it. A lot of actresses, who say it, don't mean it.

They say "I don't mind how small a part is, so long as it has meat and character." What they mean is, usually, that they don't mind because they can't help it.

Blanche Yurka says something like that, and she means what she says. Miss Yurka, the stage star, is doing her fourth movie, "Escape." There are other names ahead of hers in the cast, other roles much longer. The same was true when Miss Yurka appeared as Madame Defarge in "A Tale of Two Cities." It was not true when she starred in "Queen of the Mob," for although she had no star billing it was a Yurka movie. It was true for her next, "City for Conquest," in which she played Ann Sheridan's mother. In "Escape" there are names like Norma Shearer, Robert Taylor, Alla Nazimova—all ahead of Blanche Yurka's name.

You can believe Miss Yurka when she says she likes roles big and little because in her rich experience she has proved that it isn't the number of "sides" a part has that counts.

It's better to have two scenes an audience remembers than to go drooling through a long part and have everybody else eating the shoulders off it," she says with a laugh. Miss Yurka is a tall, commanding presence, natural as a spanking wind from the sea, and as refreshing.

IBSEN'S "The Wild Duck," one of her stage successes, contains the best proof of her contention. The role of Gina Ekdahl rated in "sides" would seem to be about fifth in "importance." But Ibsen wrote the play (or Miss Yurka played Gina) so that while other characters are acting their heads off your mind is on Gina.

Miss Yurka proved it again in her first movie, for Madame Defarge, with her cussed ways and her knitting, still stands out in memory. "Queen of the Mob," of course, was a starring role. She had none of the other players "eating off the shoulders" of the part. About "Escape," she remembers she was required to strike Nazimova, one of her own theater idols, and it was a case of striker suffering more than striklee.

WHAT keeps the actress independent of Hollywood, and hence choosy in her work, is that she's never given up the theater. For the last four years she has taken out, at intervals, her "one-woman show." She covers big cities and small villages, in some of which there is not even a theater. "It's a revelation all over again of what a wonderful country we have," she says. "If I needed anything to spur pride in being an American, these tours would do it. I've found wonderful people in these small places, eager and alert, with cultural backgrounds to shame some of us in the cities."

Yurka, despite her Czech ancestry, is a native American. St. Paul is her home town.

What she wants in roles now, be they big or little, is something a little gentle and sweet—more like a human being than the run of "hellions" she has drawn lately. When they asked her to do "Queen of the Mob," she said, "I don't mind that she's 60 years old just so she's an interesting enough old hellion."

Americans in 1939 smoked 172,000,000,000 cigarettes, 5,311,000,000 cigars and used 38,000,000 pounds of snuff.

The first U. S. President who was born an American rather than a British subject was Martin Van Buren.

Randolph Scott and Kay Francis in Exciting Adventure Hit

"WHEN THE DALTONS RODE"

At the Library Theatre Friday and Saturday

"When the Daltons Rode," Universal's saga of frontier America, in the days of the celebrated Dalton gang, comes to the Library Theatre Friday and Saturday with Randolph Scott and Kay Francis heading a distinguished cast.

Based on the exciting book of the same name, the film traces the career of the Dalton boys as ranch owners who are led into spectacular crime by the persecutions of a land company.

The story reaches a climax with the historic raid on Coffeyville, Kan., in 1892, when the gang was destroyed while staging the old west's only double bank robbery.

Miss Francis, portraying the first action role of her career, appears as the winsome telegraph operator of Coffeyville, a character based on the real-life sweetheart of one of the Daltons. Scott plays a frontier lawyer who befriends the Daltons and helps bring the land company agents to justice.

The four Daltons are portrayed by Brian Donlevy, Broderick Crawford, Stuart Erwin and Frank Albertson, while Andy Devine has what has been described as one of his best roles as the Dalton's glib-chasing ranch hand who joins the gang in their maraudings.

Civilian Pilot Training Program Here Commended By Inspector

The Civilian Pilot Training program at the Warren Airport will be speeded up so that actual flight training will get under way about October 1st, it was announced today by F. G. Andrews, of Buffalo, Civil Aeronautics Authority inspector in charge of the CPT set-up in this area.

Andrews visited the regular session of ground school here last night and spent today with Manager V. S. King at the airport, going over the plans for the training course.

The inspector stated that the ground school work is showing good progress and commended the instructor, Marshall Mathis, for his part in the program.

He said that with the start of flight training for the ten qualifiers from the present ground school course, another ground training program will be started with the second flight course to get under way on January 1.

If the program is successful in Warren, he said, there is no reason why it cannot be continued indefinitely.

Under the present set-up, the ten ground school students who make the best grades in their examinations will be selected for flight training.

In addition to the top ten, others who pass the ground school examination may be given scholarships by local organizations which may desire to do so. These scholarships cost \$325, it was stated.

Andrews pointed out that for each scholarship which the community might provide, the government will provide one more scholarship up to the limit of ten additional students.

At present, he said, about 12,000 pilots are being trained under the program. This number is expected to be greatly increased with the start of fall activities.

Regarding the origin of the name Alaska, the "Geographic Dictionary of Alaska" says: "This word is the corruption of some native word or phrase, the meaning of which is uncertain."

Hollywood Sights and Sounds

By ROBBIN COONS

HOLLYWOOD — Blanche Yurka really means it. A lot of actresses, who say it, don't mean it.

They say "I don't mind how small a part is, so long as it has meat and character." What they mean is, usually, that they don't mind because they can't help it.

Blanche Yurka says something like that, and she means what she says. Miss Yurka, the stage star, is doing her fourth movie, "Escape." There are other names ahead of hers in the cast, other roles much longer. The same was true when Miss Yurka appeared as Madame Defarge in "A Tale of Two Cities." It was not true when she starred in "Queen of the Mob," for although she had a star billing it was a Yurka movie. It was true for her next, "City for Conquest," in which she played Ann Sheridan's mother. In "Escape" there are names like Norma Shearer, Robert Taylor, Alla Nazimova—all ahead of Blanche Yurka's name.

You can believe Miss Yurka when she says she likes roles big and little because in her rich experience she has proved that it isn't the number of "sides" a part has that counts.

"It's better to have two scenes an audience remembers than to go drooling through a long part and have everybody else eating the shoulders off it," she says with a laugh. Miss Yurka is a tall, commanding presence, natural as a spanking wind from the sea, and as refreshing.

IBSEN'S "The Wild Duck" one of her stage successes, contains the best proof of her contention. The role of Gina Ekdahl rated in "sides" would seem to be about fifth in "importance." But Ibsen wrote the play (or Miss Yurka played Gina) so that while other characters are acting their heads off your mind is on Gina.

Miss Yurka proved it again in her first movie, for Madame Defarge, with her cursed ways and her knitting, still stands out in memory. "Queen of the Mob," of course, was a starring role. She had none of the other players "eating off the shoulders" of the part. About "Escape," she remembers she was required to strike Nazimova, one of her own theater idols, and it was a case of striker suffering more than strikee.

WHAT keeps the actress independent of Hollywood, and hence choosy in her work, is that she's never given up the theater. For the last four years she has taken out, at intervals, her "one-woman show." She covers big cities and small villages, in some of which there is not even a theater. "It's a revelation all over again of what a wonderful country we have," she says. "If I needed anything to spur pride in being an American, these tours would do it. I've found wonderful people in these small places, eager and alert, with cultural backgrounds to shame some of us in the cities."

Miss Yurka, despite her Czech ancestry, is a native American. St. Paul is her home town. What she wants in roles now, be they big or little, is something a little gentle and sweet—more like a human being than the run of "hellions" she has drawn lately. When they asked her to do "Queen of the Mob," she said: "I don't mind that she's 60 years old—just so she's an interesting enough old hellion."

Americans in 1939 smoked 172,000,000,000 cigarettes, 5,311,000,000 cigars and used 38,000,000 pounds of snuff.

The first U. S. President who was born an American rather than a British subject was Martin Van Buren.

Exciting Adventure Hit

"WHEN THE DALTONS RODE"

At the Library Theatre Friday and Saturday

"When the Daltons Rode," Universal's saga of frontier America, in the days of the celebrated Dalton gang, comes to the Library Theatre Friday and Saturday, with Randolph Scott and Kay Francis heading a distinguished cast.

Based on the exciting book of the same name, the film traces the career of the Dalton boys as ranch owners who are led into spectacular crime by the persecutions of a land company.

The story reaches a climax with the historic raid on Coffeyville, Kan., in 1892, when the gang was destroyed while staging the old west's only double bank robbery.

Miss Francis, portraying the first action role of her career, appears as the winsome telegraph operator of Coffeyville, a character based on the real-life sweetheart of one of the Daltons. Scott plays a frontier lawyer who befriends the Daltons and helps bring the land company agents to justice.

The four Daltons are portrayed by Brian Donlevy, Broderick Crawford, Stuart Erwin and Frank Albertson, while Andy Devine has what has been described as one of his best roles as the Dalton's girl-chasing ranch hand who joins the gang in their maraudings.

SAFETY CAMPAIGN

Alarmed at the increase in traffic accidents in municipalities, the state motor police and organized motor clubs of Pennsylvania went to work today on an intensified safety campaign.

Fatalities in the rural areas, patrolled by the state police, numbered 541 in the first seven months of 1940, 538 in the comparable period of 1939 and 543 in 1938. The cities and boroughs totaled 485 in 1940, 398 in 1939 and 405 in 1938.

Fixes Sept. 8 As Day of Prayer for Peace

Hyde Park, N. Y., Aug. 8—(AP)—President Roosevelt has set aside Sunday, September 8, as a day of prayer when Americans of every creed and denomination should ask God "to grant to this land and to the troubled world a righteous, enduring peace."

"When every succeeding day brings sad news of suffering and disaster abroad," he said in a proclamation, "we are especially conscious of the divine power, and 'it is seemly that we should' pray for God's blessing 'on our country and for the establishment of a just and permanent peace' among all nations."

This is the fourth of a series of six bridge table stories.

By WM. E. MCKENNEY
America's Card Authority
This hand was played in the Long Island Bridge League tournament a few years ago. North and South won 13 tricks on defense, although declarer's four kings were all located over the corresponding aces.

South was Dr. Henry J. Vogel, known as an imaginative player. North was Geoffrey Mott-Smith, one of the league's national tournament directors and one of the finest technical men in the game. The opening lead of the club five was won by North with the queen. North returned to a low heart and South won with the eight-spot. South led the club jack, merely to clear the suit, but when declarer guessed wrong and played low from dummy, the fire works began.

South ran the clubs and North discarded the five and deuce of spades. Declarer was taken in by this echo. When South then led a spade, dummy played low and North made his queen. Another low heart led through East's king put South in again. South, trying for "the works," led a low diamond and again North made a queen. North returned a diamond to South's ace and South returned a heart to North's ace. By this time declarer had let go all of the diamonds in both hands to save the spades and hearts. The 12th trick was won by North's diamond seven and the 13th was the spade ace.

By WM. E. MCKENNEY

This hand was played in the Long Island Bridge League tournament a few years ago. North and South won 13 tricks on defense, although declarer's four kings were all located over the corresponding aces.

South was Dr. Henry J. Vogel, known as an imaginative player. North was Geoffrey Mott-Smith, one of the league's national tournament directors and one of the finest technical men in the game. The opening lead of the club five was won by North with the queen. North returned to a low heart and South won with the eight-spot. South led the club jack, merely to clear the suit, but when declarer guessed wrong and played low from dummy, the fireworks began.

South ran the clubs and North discarded the five and deuce of spades. Declarer was taken in by this echo. When South then led a spade, dummy played low and North made his queen. Another low heart led through East's king put South in again.

South, trying for "the works," led a low diamond and again North made a queen. North returned a diamond to South's ace and South returned a heart to North's ace. By this time declarer had let go all of the diamonds in both hands to save the spades and hearts. The 12th trick was won by North's diamond, seven and the 13th was the spade ace.

WAR IN AFRICA

The African war, suddenly flaring into a more
decisive phase of the Axis-Berlin conflict, may be
decided as much by water as by bullets and bombs, ac-
cording to an Associated Press correspondent writ-
ing from Cairo.

Britain's powerful natural defenses against the
troops assembled by Mussolini in the Libyan desert
are thirst and heat.

There is a waterless stretch of blazing desert of
almost 400 miles between the Italian positions and
the British base at Mersa Matruh, on the Mediter-
ranean coast.

Temperatures of 115 and 120 degrees are usual
in the daytime.

Marshal Rodolfo Graziani, Mussolini's com-
mander in Libya, will have to transport all his water
over dusty trails almost devoid of cover and subject
to the attacks of the Royal Air Force and motorized
British land units. On the other hand the British
forces are composed of hardy fighting men, some of
the Empire's most famous regiments, who have been
trained for years in desert warfare.

The British would have a line of oasis to fall
back upon.

The naval blockade of the Libyan coast is as-
serted by the British already to have prevented much
needed supply ships from getting through Italy, while
the Royal Air Force has been subjecting Graziani's
bases at Tobruk, Bardia and Derna to almost daily
attacks.

AWFUL ANNIVERSARY

The hot days of early August are fraught with
a terrible significance today for the British. So they
were 26 years ago.

It was on Aug. 4 that Britain took its fateful step
in 1914 to back Belgium and France and enter the
war. On Aug. 8 the first British "contemptibles" set
foot on French soil. By mid-month all of them were
across, and for the remainder of August they were
being cut to pieces in that terrible retreat which seem-
ed never to have an end, and which left scarcely
enough of them alive to serve as drillmasters for the
others to come.

So now again in another August, 26 years later,
Britain faces an even more terrible crisis. An even
stronger Germany, swollen with the assurance that in
view of the airplane "there are no islands any more,"
awaits the moment to attack the green island itself.
Burn it into the record: twice in breathless August,
the fate of a great empire hung trembling in the
balance.

WHERE GOVERNMENT IS GROWING

Practically everyone who has watched the fed-
eral government's payroll climb from 862,000 in 1929
to 1,296,000 for this year has been concerned.
Of course it is even higher today, due to the defense
program.

But we don't stop to think that local govern-
ments, right under our very noses, are climbing even
faster. The Civil Service Assembly has shown in a
new census that the largest proportional increase
during the past 10 years (though not the largest actual
number) was in state governments, which now em-
ploy 540,000, as compared to 297,000 10 years ago.
City employes have increased from 718,000 to 940,-
000, and counties and smaller units from 269,000 to
more than 500,000.

With the federal government payroll certain to
increase tremendously as the defense program gains
steam, the only possible chance of holding down gov-
ernment employment for some time to come is likely
to be in the state and local fields.

That new swimming pool at the Girl Scout camp
at Grunderville will be a busy place beginning next
Monday when it will be placed at the disposal of girls
who belong to the council.

Warren and adjacent counties right now are in
finest array of heavy vegetation.

Latvia, Estonia, and Lithuania be-
fore their communization. But
nothing is said of \$3,500,000 invest-
ed by Americans in those coun-
tries, which would appear even
more effectively "frozen" by Rus-
sia.

Bonds of the three Baltic coun-
tries represent \$2,000,000 of the
American interests, though much
of the American investments in
countries overrun by the Nazi
and Communist expansions is di-
rectly placed in plants and equip-
ment. Practically all of the fore-
ign assets "frozen" here are in
bank balances or stock certificates,
the investment of Netherlands in
oil production and distribution be-
ing an exception.

Since 1933, American business-
men with branch plants in Ger-
many or German-occupied terri-
tory have been unable to bring
home any profits.

Yet if Hitler were to confiscate
outright American investments in
German-occupied countries, and
the United States should retaliate
by confiscating corresponding for-
eign-owned assets held here, Hit-
ler would come out on the short
end.

Despite the claims made for
rival rifles, army officials say they
are satisfied with the number and
performance of the Garand rifles
they are getting. Melvin M. John-
son, inventor of the rifle bearing
his name, says his weapon could
be produced at a rate of 100 an
hour, and later at 2000 a day. Gar-
ands are now being turned out at
200 a day, and the army is train-
ing skilled mechanics at the
Springfield Arsenal at such a rate
that by the end of the year pro-
duction will be doubled. A year
from now the army expects to
have 250,000 Garands on hand.

The American Red Cross has
spent only \$8,000,000 of the \$20,-
000,000 given to it for war relief
work. Less than \$500,000 of this
amount had strings attached.
Contributions, for instance, which
specified that they were to be used
for Polish, British, or French war
victims are so used. If the money
is destined for areas occupied by
the German army, the Red Cross
must get consent and make ar-
rangements with the German gov-
ernment for such distribution. Such
consent has been given for Poland
and Paris. If it proves impossible
at the time to reach those victims
for whom donations are intended,
the money is held until access to
them becomes possible.

British planes won't be ground-
ed because of the embargo on
"high octane" gasoline, which
exceeds 87 octane. Gasoline of this
type made in the U. S. averages
85 octane. Most foreign buyers,
including France, which up to

June of this year bought more
aviation fuel than either Britain
or Japan, have been using gas
with an octane rating of 85 and
less in their planes.

Enactment of the Burke-Wads-
worth bill would unload conscientious
objectors on the Department
of Justice for "inquiry and hear-
ing."

The department's civil liberties
division already has made the ac-
quaintance of Jehovah's Witnesses,
one sect which would claim ex-
emption.

STORIES IN STAMPS

Union With Soviet Ends Stamps of Three Nations

UNION of Estonia, Latvia and
Lithuania with Soviet Russia
marks the end of independent
stamp issues from these Baltic
countries. One of Latvia's final
issues, showing the coat-of-arms
and three stars.

Acceptance of the three nations
into the Soviet Union as the 13th,
14th and 15th autonomous repub-
lics of the U. S. S. R. adds 64,000
square miles of territory and
6,000,000 people to Russia. Only
a small percentage of the inhabi-
tants are Russian.

Latvia, Estonia and Lithuania
came into existence in 1918. All
were former provinces of the Rus-
sian Empire, attained their inde-
pendence under the principle of
self-determination of President
Woodrow Wilson's "Fourteen
Points."

In 1929 the republics signed mu-
tual assistance pacts with Russia,
providing for the establishment of
Soviet naval and army bases
within their borders. These pacts
paved the way for final inclusion
in the Soviet state.

times are made of ropes of cactus

A Washington Daybook

By JACK STINNETT
WASHINGTON — Capitol
barber shop:
Barber: Hello, Senator. You
look hot.

Democratic New Deal Senator:
Dammit, man, I am hot. First,
it's Hitler; then it's politics; now
it's the weather. I doubt if any of
us will live 'til the first frost. If
you put a hot towel on my head,
I'll have you jailed for sabotage.

Republican Anti-New Deal Rep-
resentative (from adjoining
chair): I guess if the Father of
Our Country could take it, Sena-
tor, we ought to be able to.
You've been making too many of
those pro-third term speeches.
Say, that one you made yester-
day about there not really being
any third term tradition—you
don't believe that, do you?

Sen.: Certainly I do. Traditions
are not made with words. You
have to have some positive acts
establishing it. The third term
idea never has beaten any one in
this country and it won't.

Rep.: Well, we'll see about that.
When that Man Roosevelt . . .
Sen.: Now look here, young man,
if you want to argue with
me, assume at least the dignity
befitting a representative of the
people and leave out the name-
calling.

Rep.: All right, when President
Roosevelt becomes Mr. Roosevelt
again, he'll realize that the people
of this country have no use for a
man who tries to ride rough shod
over the ideals of democracy.

Sen.: Tush and piffle. If the peo-
ple should vote in November to
have a new tenant at 1600 Penn-
sylvania avenue (which they cer-
tainly won't, young man) it will
be because they have been con-

vinced that someone else can do
the job better than it is being
done. The third term bugaboo will
have nothing whatever to do with
it.

Rep.: Why, Senator, how can a
man of your political astuteness
brush off so glibly the principal
issue of this campaign? Now, in
my district . . .

Sen.: I don't know anything
about your district, young man,
but I'll just illustrate what I
mean, using your district as an
example. You are a Republican;
therefore your district is Republi-
can . . . but didn't it vote for
Roosevelt in 1932 and 1936? Cer-
tainly. And that's all there is to
it. There's nothing the people of
this country like better than boot-
ing out a so-called tradition.
Other things being equal, they
would rather kick over the traces
of tradition any day than run
down the same old groove.

Rep.: Well, Senator, maybe I
don't agree with you about the
motivation, but I'll take your
idea for it that the people like
a change and still bet my bucks
that New Deal music has gone
stale in the ears of American
voters. The people want a new
tune.

Sen.: It all depends on the tune.
The national anthem has been
kicking around quite a while but
it still can bring a crowd to its
feet.

Rep.: So could "God Bless
America" until the Democrats
took it over. Well, good-bye, Sena-
tor.

Sen.: Boy, if that towel is hot,
I'll have you shot at dawn. . .
Say! I believe that last remark
was a dirty one. Skip the
shampoo, let me out of here. I've
got to go write another speech!

WAR IN AFRICA
The African war, suddenly flaring into a more
decisive phase of the Axis-Berlin conflict, may be de-
cided as much by water as by bullets and bombs, ac-
cording to an Associated Press correspondent writing
from Cairo.

Britain's powerful natural defenses against the
troops assembled by Mussolini in the Libyan desert
are thirst and heat.

There is a waterless stretch of blazing desert of
almost 400 miles between the Italian positions and
the British base at Mersa Matruh, on the Mediter-
ranean coast.

Temperatures of 115 and 120 degrees are usual
in the daytime.

Marshal Rodolfo Graziani, Mussolini's com-
mander in Libya, will have to transport all his water
over dusty trails almost devoid of cover and subject
to the attacks of the Royal Air Force and motorized
British land units. On the other hand the British
forces are composed of hardy fighting men, some of
the Empire's most famous regiments, who have been
trained for years in desert warfare.

The British would have a line of oasis to fall
back upon.

The naval blockade of the Libyan coast is as-
serted by the British already to have prevented much
needed supply ships from getting through Italy, while
the Royal Air Force has been subjecting Graziani's
bases at Torbush, Bardia and Derna to almost daily
attacks.

AWFUL ANNIVERSARY
The hot days of early August are fraught with
a terrible significance today for the British. So they
were 26 years ago.

It was on Aug. 4 that Britain took its fateful step
in 1914 to back Belgium and France and enter the
war. On Aug. 8 the first British "contemptibles" set
foot on French soil. By mid-month all of them were
across, and for the remainder of August they were
being cut to pieces in that terrible retreat which seem-
ed never to have an end, and which left scarcely
enough of them alive to serve as drillmasters for the
others to come.

So now again in another August, 26 years later,
Britain faces an even more terrible crisis. An even
stronger Germany, swollen with the assurance that in
view of the airplane "there are no islands any more,"
awaits the moment to attack the green island itself.
Burn it into the record: twice in breathless August,
the fate of a great empire hung trembling in the
balance.

WHERE GOVERNMENT IS GROWING
Practically everyone who has watched the fed-
eral government's payroll climb from 862,000 in 1929
to 1,296,000 the first of this year has been concerned.
Of course it is even higher today, due to the defense
program.

But we don't stop to think that local govern-
ments, right under our very noses, are climbing even
faster. The Civil Service Assembly has shown in a
new census that the largest proportional increase
during the past 10 years (though not the largest actual
number) was in state governments, which now em-
ploy 540,000, as compared to 297,000 10 years ago.
City employees have increased from 718,000 to 940,-
000, and counties and smaller units from 269,000 to
more than 500,000.

With the federal government payroll certain to
increase tremendously as the defense program gains
steam, the only possible chance of holding down gov-
ernment employment for some time to come is likely
to be in the state and local fields.

That new swimming pool at the Girl Scout camp
at Grunderville will be a busy place beginning next
Monday when it will be placed at the disposal of girls
who belong to the council.

Warren and adjacent counties right now are in
finest array of heavy vegetation.

T-H-O-U-G-H-T-S
I the Lord have spoken it: it shall come to pass, and I will do it;
I will not go back, neither will I spare, neither will I repent; according
to thy ways, and according to thy doings, shall they judge thee, saith
the Lord.—Ezekiel 12:14.
Religious truth, touch what points of it you will, has always to do
with the being and government of God, and is, of course, illimitable in
its reach.—R. D. Hitchcock

RUSSIANS SILENT ABOUT AMERICAN BALTIC HOLDINGS
Washington, Aug. 8.—The Russians want the U. S. to release to them \$1,000,000 of assets "frozen" here which stood to the credit of Latvia, Estonia, and Lithuania before their communization. But nothing is said of \$3,500,000 invested by Americans in those countries, which would appear even more effectively "frozen" by Russia.
Bonds of the three Baltic countries represent \$2,000,000 of the American interests, though much of the American investments in countries overrun by the Nazi and Communist expansions is directly placed in plants and equipment. Practically all of the foreign assets "frozen" here are in bank balances or stock certificates, the investment of Netherlands in oil production and distribution being an exception.
Since 1933, American business men with branch plants in Germany or German-occupied territory have been unable to bring home any profits.
Yet if Hitler were to confiscate outright American investments in German-occupied countries, and the United States should retaliate by confiscating corresponding foreign-owned assets held here, Hitler would come out on the short end.

British planes won't be grounded because of the embargo on "high octane" gasoline... which exceed 87 octane. Gasoline of this type made in the U. S. averages 85 octane. Most foreign buyers, including France, which up to

June of this year bought more aviation fuel than either Britain or Japan, have been using gas with an octane rating of 85 and less in their planes.
Enactment of the Burke-Wadsworth bill would unload conscientious objectors on the Department of Justice for "inquiry and hearing."
The department's civil liberties division already has made the acquaintance of Jehovah's Witnesses, one sect which would claim exemption.

YEARS AGO IN WARREN

Interesting Items Taken From the Warren Evening Times
In 1920
What is without doubt one of the biggest deals in the history of Warren took place today when J. A. Macay and Lawrence Chamberlain, investment bankers of New York City, had transferred to them a controlling interest in the Struthers-Wells Co., Warren's largest manufacturing industry.
A recruiting truck arrived in Warren yesterday and attracted considerable attention while on the streets. It carries some interesting relics, among them a bell which the inscription says was taken from the Kaiser's private yacht and was used as a fog alarm and dinner bell.
The new concrete bridge is being brightened up for Old Home Week with a coat of white paint. It is a question in the minds of many whether the bridge looks better in the original cement color, or is improved by painting.
All the attorneys in the county will no doubt be at the court house tomorrow when the office furniture and law books of the late Judge W. D. Hinckley will be auctioned off.
Apples of many varieties are ripening fast and owners of large orchards report many raids taking place almost daily.
In 1930
A committee composed of Miss Rachel Winger, Mrs. Mary Ball Conway, Miss Mary Stone, Miss Vera Lyon, Miss Guinevere Knapp, Charles Eaton, Richard Schumacher, Orrie Brown and Dwight Thompson are making plans for the reunion of the class of 1925 of Warren High School to be held next week at the Folkman camp at Big Bend.
The first plane owned and piloted by a Warren boy, arrived at the local airport last night when Lawrence Clark, more affectionately known to his many friends here as "Clarky," completed the last lap of his trip from Kansas City.
Monday evening the little World Series for the championship of the midget leagues of Warren opens at the South Side with the Julianos, Western champs, opposing the Refiners, Eastern league winners.
Crews were dispatched from the offices of the state and federal forestry departments this afternoon to fight a forest fire that had been reported in the woods above Oakland cemetery.

STORIES IN STAMPS

Union With Soviet Ends
Stamps of Three Nations
UNION of Estonia, Latvia and Lithuania with Soviet Russia marks the end of independent stamp issues from these Baltic countries. One of Latvia's final issues as a republic is the stamp above, showing the coat-of-arms and three stars.
Acceptance of the three nations into the Soviet Union as the 13th, 14th and 15th autonomous republics of the U. S. S. R. adds 64,000 square miles of territory and 6,000,000 people to Russia. Only a small percentage of the inhabitants are Russian.
Latvia, Estonia and Lithuania came into existence in 1918. All were former provinces of the Russian Empire, attained their independence under the principle of self-determination of President Woodrow Wilson's "Fourteen Points."
In 1939 the republics signed mutual assistance pacts with Russia, providing for the establishment of Soviet naval and army bases within their borders. These pacts paved the way for final inclusion in the Soviet state.
In Peru, bridge supports sometimes are made of ropes of cactus fiber.
Employment of bachelors in the municipal government is banned in Scottsville, Ky.

A Washington Daybook
By JACK STINNETT
WASHINGTON—Capitol barber shop:
Barber: Hello, Senator. You look hot.
Democratic New Deal Senator: Dammitall, man, I am hot. First, it's Hitler; then it's politics; now it's the weather. I doubt if any of us will live 'til the first frost. If you put a hot towel on my head, I'll have you jailed for sabotage.
Republican Anti-New Deal Representative (from adjoining chair): I guess if the Father of Our Country could take it, Senator, we ought to be able to. You've been making too many of those pro-third term speeches. Say, that one you made yesterday about there not really being any third term tradition—you don't believe that, do you?
Sen.: Certainly I do. Traditions are not made with words. You have to have some positive acts establishing it. The third term idea never has beaten any one in this country and it won't.
Rep.: Well, we'll see about that. When That Man Roosevelt...
Sen.: Now look here, young man, if you want to argue with me, assume at least the dignity befitting a representative of the people and leave out the name-calling.
Rep.: All right, when President Roosevelt becomes Mr. Roosevelt again, he'll realize that the people of this country have no use for a man who tries to ride rough shod over the ideals of democracy.
Sen.: Tush and piffle. If the people should vote in November to have a new tenant at 1800 Pennsylvania avenue (which they certainly won't, young man) it will be because they have been convinced that someone else can do the job better than it is being done. The third term bugaboo will have nothing whatever to do with it.
Rep.: Why, Senator, how can a man of your political astuteness brush off so glibly the principal issue of this campaign? Now, up in my district—
Sen.: I don't know anything about your district, young man, but I'll just illustrate what I mean, using your district as an example. You are a Republican; therefore your district is Republican... but didn't I vote for Roosevelt in 1932 and 1936? Certainly. And that's all there is to it. There's nothing the people of this country like better than booting out a so-called tradition. Other things being equal, they would rather kick over the traces of tradition any day than run down the same old groove.
Rep.: Well, Senator, maybe I don't agree with you about the motivation, but I'll take your word for it that the people like a change and still bet my bucks that New Deal music has gone stale in the ears of American voters. The people want a new tune.
Sen.: It all depends on the tune. The national anthem has been kicking around quite a while but it still can bring a crowd to its feet.
Rep.: So could "God Bless America" until the Democrats took it over. Well, good-bye, Senator.
Sen.: Boy, if that towel is hot, I'll have you shot at dawn. Say, I believe that last remark was a dirty one... Skip the shampoo, let me out of here. I've got to go write another speech!

Britons Pay High Price for Freedom

Rich and poor alike in Britain sacrifice large shares of their wages under new budget requirements to help pay the unprecedented cost of war against Hitler. Chart shows income taxes paid by two representative classes. Man making \$80,000 a year actually has only \$4,000 left as man making \$4000 a year.

Pattern 4285

By ANNE ADAMS

Doing the thousand and one things that running a home entails will be much more enjoyable in a merry apron like this Anne Adams style. Pattern 4285. The high-cut sides curve to the back to give a neat and trim fit; the skirt is crisp and flaring. The top is cut in a single piece for easy dressing. There are criss-cross straps that tie in a perky bow. You may scallop the edge of the bib or make it straight across; buttons, ruffling and ric-rac are all gay trimming ideas. For variety, consider using spirited contrast for the straps, back bow and attractively shaped pockets. And be sure to refer to the Sewing Instructor!

Pattern 4285 is available in sizes small (32-34), medium (36-38) and large (40-42). Small size takes 2 1/2 yards 3 1/2 inch fabric and 6 yards ric-rac.

REPORT MADE ON ENTERPRISE ROAD PROGRESS

Titusville Herald: Rumors that quicksand was hindering construction of the Enterprise road were denied yesterday by P. J. Schneeberger, superintendent of construction of the road for the Holmes Construction Co., of Wooster, O. When questioned on the subject, Schneeberger said:

"We haven't run into any quicksand yet."

Two factors, however, have hindered construction. One was 22 days of rain in June, and the other, springs which exist along certain stretches of the proposed road. The rains let up during July, and for the past six weeks or so, operations have moved along rapidly. Rainfall on Monday and Tuesday muddled the road up slightly. The springs have slowed up grading on certain portions of the road, but most of these streams have been diverted by means of under-drainage. One stretch, about one and one-half miles south of Enterprise, where water was bubbling rapidly from a graded bank, was causing some trouble yesterday, but a crew was working on drainage for it. The foreman said he hoped to have it under control by last night.

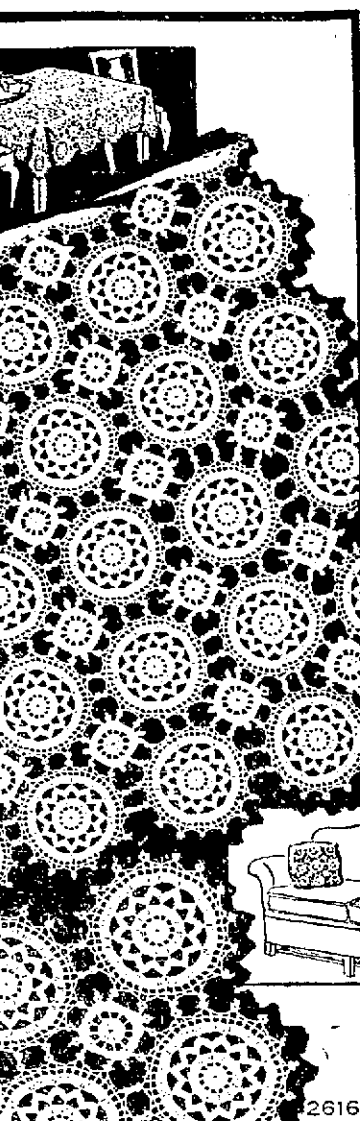

Schneeberger hesitated in placing a date when the job would be finished, but later approximated the time at October 1.

The Enterprise road contract calls for an expenditure of \$102,000 for construction of four miles of black top road with a native stone base. The road will have three bridges. It will open on Route 27, just west of East Titusville bridge, traveling due north for about a mile, where it picks up the old right of way. From there it follows the old road, with little deviation to Enterprise. In Enterprise, it will pass directly over the old base, with the result that none of the fine maple trees that line the road will be destroyed.

Approximately, the new road is one-third complete. About half of the grading is done; construction of foundation for the south bridge over Pine creek is about completed; an arch bridge over a tributary to the creek is finished, and, yesterday, carpenters were building the forms for the deck of the north bridge. They began tapping rock for the base near Enterprise yesterday morning.

According to the payroll sheet, 118 men were working as of yesterday.

REPORT MADE ON ENTERPRISE ROAD PROGRESS

Titusville Herald: Rumors that quicksand was hindering construction of the Enterprise road were denied yesterday by P. J. Schneeberger, superintendent of construction of the road for the Holmes Construction Co., of Wooster, O. When questioned on the subject, Schneeberger said:

"We haven't run into any quicksand yet."

Two factors, however, have hindered construction. One was 22 days of rain in June, and the other, springs which exist along certain stretches of the proposed road. The rains let up during July, and for the past six weeks or so, operations have moved along rapidly. Rainfall on Monday and Tuesday muddied the road up slightly. The springs have slowed up grading on certain portions of the road, but most of these streams have been diverted by means of under-drainage. One stretch, about one and one-half miles south of Enterprise, where water was bubbling rapidly from a graded bank, was causing some trouble yesterday, but a crew was working on drainage for it. The foreman said he hoped to have it under control by last night.

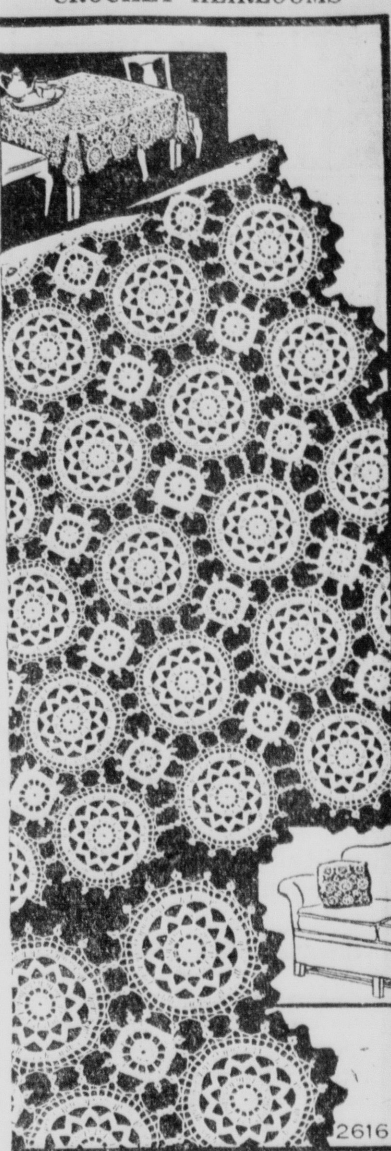

Schneeberger hesitated in placing a date when the job would be finished, but later approximated the time at October 1.

The Enterprise road contract calls for an expenditure of \$192,000 for construction of four miles of black top road with a native stone base. The road will have three bridges. It will open on Route 27, just west of East Titusville bridge, traveling due north for about a mile, where it picks up the old right of way. From there it follows the old road, with little deviation to Enterprise. In Enterprise, it will pass directly over the old base, with the result that none of the fine maple trees that line the road will be destroyed.

Approximately, the new road is one-third complete. About half of the grading is done; construction of foundation for the south bridge over Pine creek is about completed; an arch bridge over a tributary to the creek is finished, and yesterday, carpenters were building the forms for the deck of the north bridge. They began tapping rock for the base near Enterprise yesterday morning.

According to the payroll sheet, 118 men were working as of yesterday.

Between the storied hedgerows of rural England, roll tanks on ceaseless patrol, their rumble and clank drowning out the tinkling of bicycle bells. Here, too, the countryside's loudest traffic noise. Many rugged stone cottages, like those in background, have been turned into miniature forts, housing machine gun and anti-aircraft guns that command the roads and fields.

Between the storied hedgerows of rural England, roll tanks on ceaseless patrol, their rumble and clatter drowning out the tinkle of bicycle bells, heretofore the countryside's loudest traffic noise. Many rugged stone cottages, like those in background, have been turned into miniature forts, housing machine gun and anti-aircraft units that command the roads and fields.

FOREST SERVICE PUTS MARKERS AT ENTRANCES

In an effort to further acquaint the public with the extent of the Allegheny National Forest, the local office of the U. S. Forest Service has just completed erection of 14 markers designated as "entrance markers."

These markers, indicating the exterior boundaries of the forest, are very attractive and have been the object of considerable attention.

A post assembly, reaching twelve feet above the ground, holds a gablet sign which is about four feet above ground. As the post is approached the lettering above and below a coniferous tree reads: "Entering Allegheny National Forest. United States Department of Agriculture Forest Service." The reverse side is similar with substitution of the word "Leaving."

George E. Spinnery, assistant forest supervisor, said that the service has long felt the need of some such method of making the public aware of the forest's boundaries and believes that these markers will provide an answer to the problem.

FOREST SERVICE PUTS MARKERS AT ENTRANCES

In an effort to further acquaint the public with the extent of the Allegheny National Forest, the local office of the U. S. Forestry Service has just completed erection of 14 markers designated as "entrance portals."

These markers, indicating the exterior boundaries of the forest, are very attractive and have been the object of considerable attention.

A post assembly, reaching twelve feet above the ground, holds a gibbet sign which is about four feet above ground. As the post is approached the lettering above and below a coniferous tree reads: "Entering Allegheny National Forest. United States Department of Agriculture Forest Service." The reverse side is similar with substitution of the word "leaving."

George E. Spinney, assistant forest supervisor, said that the service has long felt the need of some such method of making the public aware of the forest's boundaries and believes that these markers will provide an answer to the problem.

YESTERDAY: Kay is knocked unconscious and awakes in the hospital to find Adam by her side. He swears he will never leave her again. Kay learns that Sandra's black eye was caused by a copper penny bound on with a cloth soaked in tanger.

Chapter 42 Visitors

I WOKE about the middle of the afternoon feeling as if my head were a vast unfinished building from which a thousand hammering workmen had just taken their unannounced departure. I stirred a little on my pillow. The head was sore, definitely. But that sensation of vacancy was reassuring.

Mimi and Julia arrived about four bearing flowers and a basket of fruit that should have gone up the gangplank of the Normandie. I wondered if it was for ammunition.

"I'm not proud of myself," Julia said abruptly. She looked as if she had not slept, but her smudged eyes shone like the ones in her mother's picture. "I never dreamed you'd go back to the club. I was so wrapped up in myself I couldn't spare a thought for how you must feel. And I owe you everything." A tear overflowed one eye and she dashed it impatiently away. "Jeff told me the whole thing. I go home."

"Here," she broke so quickly again. "I'm so happy."

Her face screwed up and a Niagara of tears cascaded down her cheeks.

"On hell!" she muttered. "I'll wait in the car."

Mopping her face, she ducked out of the room.

I looked desperately to the four corners of the room, hoping that someone—nurse, doctor—anyone, would save me from this moment alone with Mimi. It wasn't fair, after last night's shock I ought to be protected from this sort of thing.

But no one came; and presently, when she had finished arranging a vase of flowers and brought it to the bedside table, I had to face her.

I was going to ask her to forgive me, but what I saw stopped me. Her eyes looked dazzled, and she was all warm and light as if the sun were shining on her. She set the vase of flowers down and took my hand. She felt vibrant—so full of happiness that she was radio-active with it.

"Kay, I was wrong about Dan," she said in a hushed, marching voice. "Last night I found I could tell him anything. It must have been that talking to you had made it easier. And, Kay, he was wonderful, even when I confessed how jealous I've been. He said it was all his fault, and he told me something he would never mention before. About how he felt when his first wife died—how he blamed himself, and swore he would never marry again. But I needed him; and he loved me—I believe, that night. Only, he couldn't forget that he was responsible for the death of Julia's mother. At least that's the way he looks at it. And he couldn't bear the thought of anything happening to me. Can you understand what a difference it makes, knowing that?"

I made some meaningless answer which I am sure she did not hear. She was as untouchable as a valuable pearl wrapped around with cotton wool. I was glad for her, but I envied her a little.

After she had gone I thought about Colonel Pennant with gratitude and increased respect. It had never occurred to me that I've not given me away. The more I pondered the more my admiration grew. That man would be Chief of Staff someday. He could take it as well as dish it out!

G-Man
AND then I thought—no one's telling me what happened last night. They think I'm not well enough to know. That means it's bad. Maybe someone else got hurt, maybe the murderer got away after all, got away with the manuscript and it's costly secret. Maybe—maybe they caught the murderer and when I find out it's going to hurt.

I had a vision then of Gerald's eyes, no longer warm and friendly, or cold and alert, but beaten, terror-ridden. A horrible vision. My heart rebelled against it.

Whatever he had done I hoped they had not caught him. If they had—well, I don't want to know it. I wouldn't admit I wouldn't know it.

The nurse came in, smiling a little.

"A gentleman to see you," she said brightly. She wasn't a bad-looking girl, and I noticed that she spent more time straightening her own hair and cap than she did in making me comfortable. But I didn't care. I would only be the color of Jeff to the chaplain. Or Adam. And he had already seen me at my worst.

But I didn't care of them. I stared at the door in the doorway, and my first reaction was one of tremendous relief.

"Don't try to do anything," I exclaimed, and started hurrying at what I had said. I should have been frightened too, but I wasn't. It was something real.

assuring about those fringed gray eyes. They stared at me blankly for a moment. Then he came over to the bed and looked down at me.

"What did you say?" he asked grimly. But he didn't wait for me to think up an answer. "So that's why I couldn't keep a finger on you—Look here, young lady, if you go around accusing people so freely I don't wonder you get yourself strangled and battered."

"Just—" I interrupted desperately. "I'd forgotten about that. I mean, I hadn't thought about you in connection with it—I beg your pardon. I went on inadequately. You wouldn't have done that."

The more I talked the more flooded I felt I was not exactly making myself clear. But I saw a sort of grim amusement in Gerald's eyes.

"You mean I might kill someone but I would never batter a lady's head on the floor," he interpreted. "Well, that's not a bad character analysis. I admit I've never done the latter."

The nurse tutted. He turned and gave her a very fishy look. The nursing monopoly was practically visible for a moment. To my immense satisfaction she appeared to recall that she had other duties and withdrew.

And then the implication of what he had just said made its way to my blunted understanding. I looked into his eyes and saw the cold steel there, but I was not afraid. In that instant of revelation I saw that he could be pitiless but not unprincipled, that he could be ruthless, but never in the service of himself.

"You must think I'm a fool," I said, feeling my face grow hot. "You're—what are you? Intelligence?"

Department of Justice. I thought you knew, of course. I'm the one who's a fool. I took it for granted, that night at Fieldstone Inn, when you made veiled references to my masquerade, that Adam had told you before he left. That was why he felt safe to go, of course. He thought I'd be able to look after you. I can't say I'm very proud of myself."

The Randal Case
"YOU mean Adam knew all along?" I demanded indignantly.

"Not at first. I found out he's only been here since July, so I told him, the night we found Dan. No one else knew, not even Colonel Pennant, until after Sandra was killed. He asked for a federal man to investigate, and as I was already here, I identified myself. I came originally for quite another purpose. Suppose I tell you a story."

He drew up a chair, offered me a cigarette which I decided to refuse, and sitting with the easy poise of a man who is never completely off guard, began to talk.

"You already know parts of the story. You read about it in the newspapers, and Adam says he discussed it with you at the beach party. I'll begin at the beginning and tell you what the papers never knew."

In June the Randal child was stolen—a little golden-haired girl, the only grandchild of a man who, in his lifetime, has made many millions and many enemies. I was one of the operatives who worked on the case. Disguised as the Randal butler—an old Cockney who has been with them for thirty-five years—I delivered the ransom in person a few hours before the child was returned. I met the kidnaper, talked to him in the dark of a deserted side road about twenty miles from here. I didn't hear his voice—he spoke only in whispers. I dared not kill him as I would have liked to do. But I did take a dreadful chance. I flashed a light in his face.

"You might have been killed!" I protested.

"He wasn't likely to risk a shot—and remember, I was a bent old man. No, the chance I took was in risking the child's life. I gambled on his being masked, which he proved to be. He must have felt perfectly safe. Until long after midnight when he remembered his instinctive gesture of self-protection. He put out his hand to cover the beam of light, and his hands were bare. I had wiped the flashlight clean. He left a beautiful set of prints."

"That was clever!"

"But, ladies—two fingerprints were not on file. He took the ransom and the child was returned unharmed. And so now he gave us the slip. So we had to begin again."

"But what did you have to go on?"

About what we usually have—the ransom note, the numbers of the Randal and the victim's own story. As soon as the little girl was over the first I made friends with her and got her to tell me everything she could remember. It was up to me. She's only five. She may have been kept drugged a good bit of the time, and at that she could see very well. I got the bottom of the story before I was terrified, but in the meantime she remembered one thing that was to be our only real clue. She said that there were people who somebody knew a horror.

STORIES IN STAMPS

Frigate Birds Warned Sailors of Hurricanes

LONG before weather bureaus and radios existed, sailors got their storm warnings by watching the frigate bird. If the bird flew low, seamen got ready for a blow. If the bird appeared over land, other than at breeding time, a hurricane was in the offing. Britain's Gilbert and Ellice islands pictured the frigate bird on the 1937 Coronation issue, above.
The frigate bird has a wide range all around the world within the tropics. A smaller species is confined to eastern seas.
A large wing span and small body enable the bird to float in the air with a minimum of effort. No movement of wings is perceptible as the bird glides against the wind.
In fishing, or in robbing other sea birds of their catch, the frigate bird shows its speed and maneuverability. The birds usually are seen singly or in pairs; only on their nesting grounds are they found in large numbers.

TWO KILLED IN PLANE ACCIDENT NEAR TROY

Troy, Aug. 8.—(P)—A light plane crashed on a hilltop just outside this northern Pennsylvania borough last night, killing Alfred Longo, 35, and Harold Borgesen, 16.

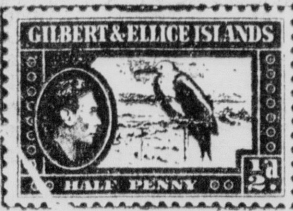

Longo was piloting the plane, which he owned. The pair, both residents of Troy, had taken off from a local field just a short time before for a ride.

Glenn Hewitt, who lives near the scene of the crash, said he heard the motor miss and looked up in time to see the plane dive to the ground.

Both men were dead when witnesses reached the wreckage.

There are no polecats in America. The name, applied erroneously to American skunks, belongs to a European marten.

Frigate Birds Warned Sailors of Hurricanes

LONG before weather bureaus and radios existed, sailors got their storm warnings by watching the frigate bird. If the bird flew low, seamen got ready for a blow; if the bird appeared over land, other than at breeding time, a hurricane was in the offing. Britain's Gilbert and Ellice islands pictured the frigate bird on the 1937 Coronation issue, above.

The frigate bird has a wide range all around the world within the tropics. A smaller species is confined to eastern seas.

A large wing span and small body enable the bird to float in the air with a minimum of effort. No movement of wings is perceptible as the bird glides against the wind.

In fishing, or in robbing other sea birds of their catch, the frigate bird shows its speed and maneuverability. The birds usually are seen singly or in pairs; only on their nesting grounds are they found in large numbers.

SMITH ASKS FOR SUSPENSION OF FRESHMAN RULE

By JUDSON BAILEY
 Associated Press Sports Writer
 The Pittsburgh Pirates, famous August foldups, are unfolding finally into some semblance of the flower everybody expected from Frankie Frisch.

The club is no marvelous machine, but it's going places faster than any other outfit in the major leagues at the moment. In two days it has swept three games from the St. Louis Cardinals, who up until this week were some hot shakes themselves, and right now must be considered as a possible first division finisher.

It took a long time for the Pirates to find themselves under Frisch's frantic experimentation. Early in the season they sank practically out of sight by losing 16 out of 38 games. But now they have won seven straight and 16 out of their last 20 to get a grip on fifth place, just one game out of the upper strata.

Some days they win with good pitching and some days with good hitting, but mostly they just win. For instance they nosed out the Cardinals 10-9 in the first game yesterday although they were out hit 15-9. Frisch kept up a stream of substitutions and Spud Davis Delivered a pinch single scoring two runs in the eighth to win the game.

The Reds gave more ground as they dropped a 5-3 ten-inning battle to the Chicago Cubs who thus broke Paul Derringer's winning string at seven games.

The Dodgers made the most of this opportunity by overwhelming the New York Giants 8-4 in a night game that was intended to honor Mel Ott and drew a crowd of 53,997 to the polo grounds.

Six innings the affair followed the pattern planned by the committee on arrangements, with Carl Hubbell hurling masterfully and the Giants leading 3-1. Then Brooklyn blasted out five runs in the seventh and kept right on rolling. It was red Fitzsimmons' 11th victory against two defeats.

The Boston Bees continued to plague the poor Phillies, taking a night game 6-3 with Eddie Miller and Carvel Rowell each hitting homers with a mate aboard.

The American League race remained unchanged. The pace-setting Detroit Tigers outlasted the St. Louis Browns to win 7-5. The Indians crushed the White Sox 9-3 with Lou Boudreau staging a one-man show. He hit two home runs and a single, batting in six scores.

New York's tottering Yankees divided a doubleheader at Boston, but it took a three-run rally in the ninth inning of the nightcap to end their five-game losing streak. The Red Sox won the opener 10-7 with a 16-hit offensive concentrated in the middle innings, but in the second game were slowed down to eight hits by Lefty Matus Russo.

ASSISTANT GIVEN GROVE CITY POST
 Grove City, Pa., Aug. 8.—(P.) Competing with 20 other applicants, Eugene Forker, assistant coach of athletics at Grove City high school was picked for the school's head coaching job, vacant through the resignation of Joseph Hartman.

SEMI-PRO TITLE TAKEN BY NATRONA
 Vandergrift, Pa., Aug. 8.—(P.) Natrona scored two runs in the seventh inning to defeat Ford City 2-0 and win the state semi-pro baseball championship yesterday. Natrona, succeeding the Vandergrift Redbirds, will represent Pennsylvania in the national tournament.

CHAMPION'S SCOREBOARD
 Prospects Are Bright for an All-Ohio Series; Cleveland Pitching Seen Too Much for Detroit; Cincinnati Has Bill Baker to Assist Lombardi

BY HARRY GRAYSON
 NEA Service Sports Editor
 MELVIN HARDER of the Indians has found his handuffs again, and prospects for an all-Ohio world series were never so bright.

Cincinnati and Cleveland would provide an exciting and profitable fall show, with patrons shuttling from one end of the state to the other. There are only a few more than 30,000 seats at Crosley Field, but there would be accommodations for all in Cleveland's huge Municipal Stadium, which holds 51,000.

Johnny Allen is also throwing the little ball, as the athletes say. Mel Harder and Allen, stingy with base hits, and coupled with the great Bob Feller, the left-handed Als-Muhar and Smith—and Joe Dobson, give Cleveland the slickest pitching in either major circuit.

With a bulge in the box, a stout defense and hitters due to hit, the Indians should be able to beat off the Detroit Tigers and their leaky infield in the American League.

CINCINNATI tailed off toward the close of its last season swing. The Reds were then left in a daze by the sudden of Willard Herschberger.

It has been a trail of this club, both last year and this to slow up when it gets far in front. The Rhinelanders thrive on competition, not on prosperity. They are fighters, which is one of the principal reasons why they are expected to repeat in the National.

Emie Lombardi will continue to do the bulk of the Reds' catching, with Bill Baker ready to spell the big work-horse. Baker is an experienced and rather capable hand who came up from Indianapolis last spring.

CINCINNATI players believe it was his failure to go well when called on to substitute for Lombardi over a stretch of games that led to Herschberger's tragic end. Herschberger hit well as a second stringer, catching only now and then, but nervousness got the best of him when he was forced to carry the entire load, which was the case when Lombardi sprained his ankle in Philadelphia.

Philadelphia, Aug. 8.—(P.) Maurice J. "Clipper" Smith, football coach at Villanova College, wants the nation's schools to waive freshmen eligibility rules if the military conscription bill becomes law.

He said yesterday that some of the leading coaches have been discussing the matter, and added: "In nearly every college the draft law will affect the seniors and some of the juniors. The upper classmen are the experienced players and the backbone of any football team, if they are called up it is obvious that a great number of colleges will be minus some stellar performers this season."

"It will be a hard blow to those coaches and colleges which had been counting on a successful season, but the sacrifice will be one that every coach will make willingly. After all the main purpose of athletics in colleges is to mold character and teach young men to fight the battles of life."

Letting freshmen compete, said Smith, "would be of great benefit to us at a time like this. This law was intended to curb abuses widespread a decade ago, but which have virtually disappeared now. x x x After the emergency has passed the rule could be restored to its present status."

SHIELDS DEFEATS GIL HUNT AT RYE

Rye, N. Y., Aug. 8.—(P.) Gil Hunt, who doesn't want to win the national tennis championship until he is 27, has only a routing interest in the Eastern Grass Court championships today.

The Washington, D. C., player was eliminated short of the quarter-final round yesterday by Frank Shields, of New York, who wouldn't mind winning at Forest Hills now that he is 29.

Jubilating in a quiet way over his 6-3, 5-7, 9-7 job against Hunt yesterday, Shields explained, "I just had to beat Gil today. Two weeks ago at Sea Bright, he defeated Sid Wood, my partner in the laundry business, so by taking Hunt today, I now become senior partner of the concern."

Shields will meet Bobby Riggs in the round of eight. The women quarter-finalists are Helen Jacobs, Dorothy May Bundy, Sarah Palfrey and Virginia Wolfenden, who meet in that order in the upper-bracket.

BROCKWAY PLAYS TIE WITH FORGERS

Brockway, second place county team in the Jefferson county league, played the National Forge to a 7-7 tie yesterday afternoon at Brockway, the game being called at the end of the ninth because of darkness.

Caffrey and Kulick hurried for the Forgers, a ninth inning run saving Irvine from defeat. Giegerich, batting in the clean-up spot, had three of the Forge's nine hits, while Joe Massa slugged a home run. Brockway garnered a dozen safeties off the offerings of Kulick and Caffrey.

SEMI-PRO TITLE TAKEN BY NATRONA

Vandergrift, Pa., Aug. 8.—(P.) Natrona scored two runs in the seventh inning to defeat Ford City 2-0 and win the state semi-pro baseball championship yesterday. Natrona, succeeding the Vandergrift Redbirds, will represent Pennsylvania in the national tournament.

SPORT SCATTERINGS

By Bill Rice

Sam Snead

Your agent disengaged his feet from the top surface of his desk yesterday afternoon long enough to accompany Bob Ritchie's personally-conducted tour of the Chautauqua golf course and incidentally to watch the exhibition of golf as she should be played, as presented by Messrs. Henry Picard and Samuel Snead, a couple of pretty fair country pasture-exponents. In our opinion, yesterday's exhibition was the finest we have ever seen, both pros contributing 18 holes of stellar golf and frequently bobbing up with a shot that alone was worth the price of admission. Of the two, Picard was closer to top form, rarely being in trouble, and on a few occasions he strayed from the straight and narrow he gave ample proof that hazards and rough mean little or nothing to him. Picard will defend his P. G. A. title on his home course at Hershey the last of this month, and if he plays as flawlessly as he did over the Chautauqua the other pros go crazy on him, he may be the first man to win the diadem in his own back yard.

Snead is, of course, the super showman. His whispered remarks, just loud enough to carry to the inner fringe of the gallery, were reminiscent of "The Hag," an expert with the needle, and brought a grin to the face of the usually dour Picard, who, by the way, has mellowed considerably in the past year. Neither pro appears to take a terrific cut at the ball as did Sarazen or Archie Compston at their peak, yet how that little pellet rides! Of the two, Picard's swing is the more smooth and rhythmic, and where he trails Snead off the tee he more than makes up for the slight difference in the drive by miraculous control of his irons. In a shot-making display before the match, the tutors commented on each other's particular style of play, the description sounding a great deal like a meeting of the sub-committee of the Mutual Admiration Society. Snead is among the half dozen who may lift Henry's crown at Hershey.

Which brings us down to Warren's Charley Eberhardt, who shot a 75 and demonstrated that if he could bring his short game up to the par of the big-timers he could be up there with the best of them. "Chuck" was consistently long off the tee and hit very fine irons, but lost from five to six strokes on our scorecard because of an occasional sad chip shot or a mistimed putt. On the other hand, he had some very bad breaks on three or four putts which either rimmed or stopped a fraction of an inch short, and those more familiar with his game than this observer remarked that his work around the greens is steadily improving. It pleased a host of friends in the gallery to see Charley exhibit "Sammy Sam" off several tees and out in front of the Hershey shotmaker most of the time. Over the first nine, it was Eberhardt who kept the home duo within shouting distance by stepping into the breach with a couple of birds and some great shots that brought spontaneous applause from the gallery and "fine shot" from Picard and Snead.

Among the Warren enthusiasts in the gallery were Bob Ritchie, District Attorney Joe Goldstein, Joe Brindis, Harry Lord, Dean Anderson, Mr. and Mrs. K. M. Andrews, George Eberhardt, Helen Lauffenberger, Mrs. Howard Lauffenberger, Councilman Joe DeFreese, Horace A. Crary, Marshall Parrish, Dr. Paul Stewart, Mrs. Charles Eberhardt, Mrs. Larry Amy, Mr. and Mrs. L. A. Branch, Mrs. Joan Blair Hoyer and Dr. W. F. Graves. Many local golfers will go to Bradford on Saturday here Gene Sarazen and Ed Oliver will give an exhibition over the Penn Hills course, and it occurs to us that a pretty fair-sized crowd might turn out if a couple of the top-flight pros were brought to Conewango Valley. There's a kick in seeing someone hit 'em where you ought to.

Sports Round-up

By BILL WHITE
 New York, Aug. 8.—(P.) There was a dry eye in the house last night when Master Melvin Ott got all those nice presents.

As Lippy Leo Durocher, the Dodger boss said, "Well, he's the one guy that deserves all this." Hal Surface, who beat him, says Welby Van Horn, tennis problem child, will wow 'em in the nationals at Forest Hills again this year. He says when the chips are down, the kid'll come through.

Denver U's gridders will travel 7,800 miles for one game this fall; they play in Hawaii Dec. 14. Dean T. J. Thompson of Nebraska will have two reasons (this two sons) for whooping it up for the Husker grid team this season. Bobby Riggs may stay out of the next two eastern tournaments to polish up his offensive strokes. Red Fricell, one of the best, will referee the N. Y. Giants-All Star grid game here Sept. 4, replacing old Tom Thorp, whose's still too ill.

Today's Guest Star
 Jack Miloy, New York Post: "They never give a fellow a dinner until he can afford to buy his own. Man and boy, Mel Ott has been with the Giants for 15 years, so last night the fans finally got around to paying him a tribute. Maybe they've just been waiting to see if he was going to make good."

Nos. 3 and 4
 Closest a ball player by the name of George Prone—who flopped with Danville in the Tri-State League—will ever get to fame came Tuesday in Boston when he was working out with the Yanks and somehow got that sacred number "4"—Lou Gehrig's.

H. Ruth's old No. 3 will be worn by husky Al Helfer who'll play with the Dodger "tryouts" here against a semi-pro team tonight. He couldn't be fitted, so they called a uniform company—and they had a couple of Ruth's old ones on hand. The Babe, as you'd expect, told the kid to go ahead and use one.

One Minute Interview
 Eddie Brannick, secretary of the Giants: "You know, I've always been fond of the theater. That's why I talk so much about the Brooklyn club. They're the one everybody reads the Times-Mirror."

SAM SNEAD AND PICARD DISPLAY GOLFING SKILL

With an exhibition of golfing skill seldom seen in the hinterlands, Henry Picard, P. G. A. champion, and Sam Snead, one of the nation's leading pros, yesterday defeated Bill Souter, Chautauqua tutor, and Charley Eberhardt, Florida amateur, formerly of this city, 6 and 5 on the Assembly Grounds course.

Picard led the way for the invading pros, scoring 68, four under par, which included an eagle on the long 10th. Snead carded a 71 and Eberhardt a 75, with Souter scoring approximately 80. He picked up from an unplayable lie on the fifth hole.

The visitors were four up at the end of nine, tied the tenth and Picard came through with an eagle, and a birdie on the 11th and 12th to wind up hostilities.

Odds Favor Conn In Pastor Bout Tuesday; Billy Losing Weight

New York, Aug. 8.—(P.)—As befits a man who has been knocked down by Joe Louis six or seven times and knows, therefore, that nothing much worse can possibly happen to him, Bob Pastor is amazingly calm about his approaching fight with Billy Conn, the light-heavyweight champion.

Bob Pastor

Pastor has had two bouts with mediocre opponents since Louis flattened him in Detroit last summer. He won both easily, and close observers say they can't see that he has gone back in any way.

Johnston tried to rib Pastor into a state of indignation about it, but Bob only grinned. Neither could Pastor be drawn into any extended explanation of why he came into the city in the hottest weather to train in a sweaty room when he had all outdoors to choose from. "Why, I live in the country all the time," he said, and seemed to think that was adequate reason.

Conn, who spent yesterday in Pittsburgh visiting his ill mother, is having difficulty staying as high as 180 pounds. Unless Billy weighs at least that much for Pastor, it will be hard to convince the public that he belongs in the ring with 200-pound Joe Louis. That is, if he whips Pastor.

SMITH ASKS FOR SUSPENSION OF FRESHMAN RULE

Philadelphia, Aug. 8.—(T)—Maurice J. "Clippy" Smith, football coach at Villanova College, wants the nation's schools to waive freshmen eligibility rules if the military conscription bill becomes law.

He said yesterday that some of the leading coaches have been discussing the matter, and added: "In nearly every college the draft law will affect the seniors and some of the juniors. The upper classes are the experienced players and the backbone of any football team. If they are called up it is obvious that a great number of colleges will be minus some stellar performers this season."

"It will be a hard blow to those coaches and colleges which had been counting on a successful season, but the sacrifice will be one that every coach will make willingly. After all the main purpose of athletics in colleges is to mold character and teach young men to fight the battles of life."

Letting freshmen compete, said Smith, "would be of great benefit to us at a time like this. This law was intended to curb abuses widespread a decade ago, but which have virtually disappeared now."

After the emergency has passed the rule could be restored to its present status."

SHIELDS DEFEATS GIL HUNT AT RYE

Rye, N. Y., Aug. 8.—(T)—Gil Hunt, who doesn't want to win the national tennis championship until he is 27, has only a rooting interest in the Eastern Grass Court championships today.

The Washington, D. C. player was eliminated short of the quarter-final round yesterday by Frank Shields, of New York, who wouldn't mind winning at Forest Hills now that he is 29.

Jubilating in a quiet way over his 6-3, 6-7, 6-7 tie against Hunt at Forest Hills, Shields explained, "I just had to beat Gil today. Two weeks ago at Sea Bright, he defeated Sid Wood, my partner in the laundry business, so by taking Hunt today, I now become senior partner of the concern."

Shields will meet Bobby Riggs in the round of eight.

The women quarter-finalists are Helen Jacobs, Dorothy May Bundy, Sarah Palfrey and Virginia Wolfenden, who meet in that order in the upper-bracket.

BROCKWAY PLAYS TIE WITH FORGERS

Brockway, second place occupant in the Jefferson county league, played the National Forge to a 7-7 tie yesterday afternoon at Brockway, the game being called at the end of the ninth because of darkness.

Caffrey and Kulick hurried for the Forgers, a ninth inning run saving Irvine from defeat.

Giechler, batting in the clean-up spot, had three of the Forge's nine hits, while Joe Massa slapped a home run. Brockway garnered a dozen safeties off the offerings of Kulick and Caffrey.

SEMI-PRO TITLE TAKEN BY NATRONA

Vandergrift, Pa., Aug. 8.—(P)—Natrona scored two runs in the seventh inning to defeat Ford City 2-0 and win the state semi-pro baseball championship yesterday. Natrona, succeeding the Vandergrift Redbirds, will represent Pennsylvania in the national tournament.

Grayson's SCOREBOARD

Prospects Are Bright for an All-Ohio Series; Cleveland Pitching Seen Too Much for Detroit; Cincinnati Has Bill Baker to Assist Lombardi

BY HARRY GRAYSON
NEA Service Sports Editor
MELVIN HARDER, of the Indians has found his handuffs again, and prospects for an all-Ohio world series were never so bright. Cincinnati and Cleveland would provide an exciting and profitable fall show . . . with patrons shuttling from one end of the state to the other. There are only a few more than 30,000 seats at Crosley Field, but there would be accommodations for all in Cleveland's huge Municipal Stadium, which holds 81,000.

Johnny Allen is also throwing the little ball, as the athletes say. Mel Harder and Allen, stung by base hits, and coupled with the great Bob Feller, the left-handed Als—Mihar and Smith—and Joe Dobson, give Cleveland the slickest pitching in either major circuit.

With a bulge in the box, a stout defense and hitters due to hit, the Indians should be able to beat off the Detroit Tigers and their Cincinnati tail off toward the close of its last eastern swing.

The Reds were then left in a daze by the suicide of Willard Hersberger.

It has been a trait of this club, both last year and this, to slow up when it gets far in front. The Rhinelanders thrive on competition, not on prosperity. They are fighters, which is one of the principal reasons why they are expected to repeat in the National.

Ernie Lombardi will continue to do the bulk of the Reds' catching, with Bill Baker ready to spell the big work-horse. Baker is an experienced and rather capable hand who came up from Indianapolis last spring.

CINCINNATI players believe it was his failure to go well when led to Hersberger's tragic end. Hersberger hit well as a second stringer, catching only now and then, but nervousness got the best of him when he was forced to carry the entire load, which was the case when Lombardi sprained his ankle in Philadelphia.

The moody Hersberger was depressed to a greater degree than usual when Bucky Walters couldn't hold a three-run lead after retiring two Giants in the ninth at the Polo Grounds. A walk and a home run and another walk and another home run and Walters was beaten.

Willard Hersberger, poor fellow, insisted he called the wrong pitches on the home run balls.

SPORT SCATTERINGS

Sam Snead

layout and none of the other pros goes crazy on him, he may be the first man to win the diadem in his own back yard.

Snead is, of course, the super showman. His whispered remarks, just loud enough to carry to the inner fringe of the gallery, were reminiscent of "The Hag", an expert with the needle, and brought a grin to the face of the usually dour Picard, who, by the way, has mellowed considerably in the past year. Neither pro appears to take a terrific cut at the ball as did Sarazen or Archie Compston at their peak, yet how that little pellet rides! Of the two, Picard's swing is the more smooth and rhythmic, and where he trails Snead off the tee he more than makes up for the slight difference in the drive by miraculous control of his irons. In a shot-making display before the match, the tutors commented on each other's particular style of play, the description sounding a great deal like a meeting of the sub-committee of the Mutual Admiration Society. Snead is among the half dozen who may lift Henry's crown at Hershey.

Which brings us down to Warren's Charley Eberhardt, who shot a 75 and demonstrated that if he could bring his short game up to the par of the big-timers he could be up there with the best of them. "Chuck" was consistently long off the tee and hit very fine irons, but lost from five to six strokes on his scorecard because of an occasional sad chip shot or a misstroked putt. On the other hand, he had some very bad breaks on three or four putts which either rimmed or stopped a fraction of an inch short, and those more familiar with his game than this observer remarked that his work around the greens is steadily improving. It pleased his host of friends in the gallery to see Charley outthrust "Slammin' Sam" off several tees and out in front of the Hershey shotmaker most of the time. Over the first nine, it was Eberhardt who kept the home due within shouting distance by stepping into the breach with a couple of birds and some great shots that brought spontaneous applause from the gallery and "fine shot" from Picard and Snead.

Among the Warren enthusiasts in the gallery were Bob Ritchie, District Attorney Joe Goldstein, Joe Brindis, Harry Lord, Dean Anderson, Mr. and Mrs. K. M. Andrews, George Eberhardt, Helen Lauffenberger, Mrs. Howard Lauffenberger, Councilman Joe DeFrees, Horace A. Cray, Marshall Parrish, Dr. Paul Stewart, Mrs. Charles Eberhardt, Mrs. Larry Amy, Mr. and Mrs. L. A. Branch, Mrs. Joan Blair Hoyte and Dr. W. F. Graves. Many local golfers will go to Bradford on Saturday, where Gene Sarazen and Ed Oliver will give an exhibition over the Pennhills course, and it occurs to us that a pretty fair-sized crowd might turn out if a couple of the top-flight pros were brought to Conewago Valley. There's a kick in seeing someone hit 'em where you ought to.

Sports Round-up

By BILL WHITE
New York, Aug. 8.—(T)—There wasn't a dry eye in the house last night when Master Mel Ott got all those nice presents.

As Lippy Leo Durocher, the Dodger boss said, "Well, he's the one guy that deserves all this." Hal Surface, who beat him, says Welby Van Horn, tennis problem child, will wow 'em in the nationals at Forest Hills again this year. He says when the chips are down, the kid'll come through. . . . Denver U's gridgers will travel 7,800 miles for one game this fall (they play in Hawaii Dec. 14). . . . Dean T. J. Thompson of Nebraska will have two reasons (his two sons) for whooping it up for the Husker grid team this season. . . . Bobby Riggs may stay out of the next two eastern tournaments to polish up his offensive strokes. . . . Red Friesell, one of the best, will referee the N. Y. Giants-All Star grid game here Sept. 4, replacing old Tom Thorpe, who's still too ill.

Today's Guest Star
Jack Miley, New York Post: "They never give a fellow a dinner until he can afford to buy his own. Man and boy, Mel Ott has been with the Giants for 15 years, so last night the fans finally got around to paying him a tribute. Maybe they've just been waiting to see if he was going to make good."

Nos. 3 and 4
Closest a ball player by the name of George Frons—who flopped with Danville in the Tri-State League—will ever get to fame came Tuesday in Boston when he was working out with the Yanks and somehow got that sacred number "4"—Lou Gehrig's. And G. H. Ruth's old No. 3 will be worn by husky Al Helfer who'll play with the Dodger "tryouts" here against a semi-pro team tonight. He couldn't be fitted, so they called a uniform company—and they had a couple of Ruth's old ones on hand. The Babe, as you'd expect, told the kid to go ahead and use one.

One Minute Interview
Eddie Brannick, secretary of the Giants: "You know, I've always been fond of the theater. That's why I talk so much about the Brooklyn club. They're the one

SAM SNEAD AND PICARD DISPLAY GOLFING SKILL

With an exhibition of golfing skill seldom seen in the hinterlands, Henry Picard, P. G. A. champion, and Sam Snead, one of the nation's leading pros, yesterday defeated Bill Souter, Chautauqua tutor, and Charley Eberhardt, Florida amateur, formerly of this city, 6 and 5 on the Assembly Grounds course.

Picard led the way for the invading pros, scoring 68, four under par, which included an eagle on the long 13th. Snead carded a 71 and Eberhardt a 75, with Souter scoring approximately 80. He picked up from an unplayable lie on the fifth hole.

The visitors were four up at the end of nine, tied the tenth and Picard came through with an eagle and a birdie on the 11th and 12th to wind up hostilities.

Odds Favor Conn In Pastor Bout Tuesday; Billy Losing Weight

New York, Aug. 8.—(T)—As befits a man who has been knocked down by Joe Louis six or seven times and knows, therefore, that nothing much worse can possibly happen to him, Bob Pastor is amazingly calm about his approaching fight with Billy Conn, the light heavyweight champion.

Pastor has had two bouts with mediocre opponents since Louis flattened him in Detroit last summer. He won both easily, and close observers say they can't see that he has gone back in any way to a state of indignation about it.

Johnston tried to rib Pastor into a state of indignation about it, but Bob only grinned. Neither could Pastor be drawn into an extended explanation of why he came into the city in the hot weather to train in a sweaty room when he had all outdoors to choose from. "Why, I live in the country all the time," he said, and seemed to think that was adequate reason.

Conn, who spent yesterday in Pittsburgh visiting his ill mother, is having difficulty staying as high as 180 pounds. Unless Billy weighs at least that much for Pastor, it will be hard to convince the public that he belongs in a ring with 200-pound Joe Louis. That is, if he whips Pastor.

Dixie Walker, Dodgers—Home run, triple and two singles to in four runs against Giants.
Carvel Powell and Eddie Miller—Each contributed home runs with man on base to triumph over Phillies.
"In all my years in the game this is the silliest thing I ever ran into," said Jim. "Bob ought to be a 3 to 1 favorite over the kid from Pittsburgh. He'll probably win every round. But they've made Conn a favorite. It beats me."

Most of the ballyhoo has centered about Conn's chances of licking Louis after he has disposed of Pastor next Tuesday night. Pastor has been more or less neglected, yet he isn't resentful. He thinks it's funny. His manager, the voluble Jimmy Johnston, thinks it's crazy.

The stewardess had in her possession. She was reported to be suffering from body and head abrasions, which hospital authorities said were not serious.
The ship on which the incident occurred was kept on the ground, and passengers were transferred to another plane.
Airline officials said no clues had been discovered which would throw light on the manner in which the girl was injured. They said her condition would not permit questioning.

West Virginia, everybody I talked to says he went away to avoid service in the armed forces. That's the doctrine of slackers."
"The senator from Indiana can search the gutters of West Virginia and find anything," Holt shouted, leaping to his feet. "Of course the senator would search there, feeling at home there."
Holt sat down, but Senator Lee (D-Okla.) arose to say that Holt had implied yesterday that Minton was intoxicated. This was unfounded, Lee declared, explaining that he had had Minton blow his breath in his face and that he smelled no liquor.
"I'm glad the senator from Oklahoma has become an expert on halitosis," Holt observed.

New Policy Toward
India Announced By
British Government

were bombers, the others chasers and escort planes.
But even as Britons cheered this new evidence of growing power of the RAF, many were concerned with developments in that hot, dry corner of northeast Africa where a British force, in the Kipling tradition, sought to block Italy's intended conquest of the continent.

British military authorities in London, conceding capture of Zeila in British Somaliland, expressed belief the Fascists forces would have a tough time taking Berbera, principal port of the country, and connected with Zeila by a 150-mile motor road. An Italian advance along this road could be placed under constant fire from air and land and perhaps from sea.

In Africa Italians held the port of Zeila, seized in a short march from French Somaliland, and aimed a principal drive across British Somaliland toward Berbera. The British said massed Libyan troops have not yet pushed across the frontier into the west Egyptian desert.

In France the new supreme court was called to its first session today at Riom with its No. 1 job of lengthy, far-reaching investigation to fix the blame for France's war blunders and to punish the guilty. Hungary served notice on Rumania that she would be content with no less than 75 per cent of the Rumanian province of Transylvania in their territorial dispute in which Adolf Hitler is said to have advised Rumania to settle promptly.

Rumanian negotiations with Bulgaria over the latter's claims on southern Dobruja were scheduled to open today.
Rumania, cleaving close to the Nazi pattern, worked out new laws limiting the rights and activities of Jews and making them liable to special taxes.

said that it would canvas the field of existing and prospective economic problems growing out of the European war and the application of proposed remedies.
Heading the list was the mounting surplus of commodities of some Latin American countries in which former European markets have been closed by the war.

Spearhead of the United States attack on this is the administration bill before congress to increase the lending power of the export-import bank by \$500,000,000.
The Hatch law prohibits political activity by federal workers and state workers paid partly from federal funds.
Campaign issues and strategy also will be discussed with Landon and Hoover, Wilkie said.

If he is elected, Wilkie said, he and members of his family will file statements of personal assets with the secretary of state regardless of whether the Hatch law is amended.
The Department of Labor and Industry has just completed a survey, selecting 10 employment groups and 10 populous counties for special study to determine what has taken place in Pennsylvania's industrial reawakening within the last 12 months.

It found employment in the iron and steel industry and other metal production to be the "controlling factor."

private business and praised his administration of the Post Office department.
"All of us in the administration," the president wrote, "will miss you deeply; we count on seeing you often. I especially count on this after all of our years of close personal association. Our friendship will always continue."
Fareley, a political ally of the chief executive of many years standing, said in his letter of resignation as postmaster general dated yesterday that he, too, felt sincere regret at taking the step, listed accomplishments of the postal service, and added:
"During my lifetime I shall cherish the associations and friendships which I have made while serving as postmaster general, both in the postal service and in other departments and agencies of the federal government."

"I know that it will please you to learn that I have definite arrangements for my future in private business where I know I shall be very happy."

DIES IN COURT
Uniontown, Aug. 8.—(AP)—George Johnson, 30, dropped dead after arising in an alderman's office to plead guilty to assault and battery last night. His wife, Mary, collapsed when she saw him fall. Her head struck a piece of wood, sending her to a hospital with a slight concussion.

NO FOREST FIRE MENACE
Harrisburg, Aug. 8.—(AP)—The long-delayed wet spring left a good blanket of foliage in state forests, permitting the trees to withstand a recent lengthy dry spell, G. Albert Stewart, secretary of forests, said today.
Stewart saw no menace of widespread forest fires unless there is a long period without rain.

Riding gossamer parachutes, using spiders have flown hundreds of miles.

James Declares Wilkie To Make Visit in Pa.

delegation of more than 300 to Ellwood, Ind., where Wilkie will make his acceptance speech August 17.

Young Republicans of Pennsylvania have invited the candidate to speak before their state convention here in September and the state committee is seeking to arrange other suitable speaking engagements.

Colorado Springs, Colo., Aug. 8.—(AP)—Aldes of Wendell L. Wilkie said today he would ask former President Herbert Hoover and Al M. Landon, the 1936 Republican nominee, to support his demand for broad amendments to the Hatch anti-politics law.

Wilkie told his press conference yesterday the existing act should be amended to require the president, cabinet officers and all other now exempt officials to file sworn statements of their assets upon taking and leaving office.

He added that another desirable amendment would be a provision prohibiting any member of a family of an official from receiving compensation for representing clients before federal agencies.

The Republican nominee will have a luncheon conference with Landon here Tuesday. He will see Hoover in Denver sometime next week.

Campaign issues and strategy also will be discussed with Landon and Hoover, Wilkie said.

Greatest Trial In History of France Starts
(From Page One)
with: "Seeking out responsibilities directly incurred through foreign, internal and military policies that led to the situation in which France now finds herself."

Today's brief ceremony of installation turns over the tribunal to 62-year-old Pierre Casas, former criminal court judge, twice wounded in the World War and twice cited for bravery.

Casas, as president of the supreme court, will have direct charge of the trials. His assistant, as vice-president, is 68-year-old Henri Lagarde, former counselor of the Court of Cassation.

One admiral and one general are among the justices who will delve into the political and military background of the catastrophe which began when France declared a state of war with Germany in September, 1939, and ended last June with the collapse of her military machine after a few weeks of heavy fighting.

The war-blame inquiry itself may not get under way for several days. Weeks and even months of judicial investigation may ensue before the defendants are officially named and specific charges entered against them.

The press, which has kept up the cry that those to blame must be clearly, has heaped most of its criticisms on former Premier Edouard Daladier, the war-declaring

coastline on the Red Sea, the Gulf of Aden and the Indian ocean.

It also would provide potential naval bases at Jibuti, Zeila and Berbera, facing Britain's strategic base at Aden, less 200 miles across the gulf of Aden.

(The British announced loss of Zeila yesterday).
Zeila, and Berbera, capital of British Somaliland and largest port in the protectorate, are the natural outlets to the gulf of Aden—a sort of window on the Indian ocean—Italians said.

They said these ports were much better for their new empire in Ethiopia than Jibuti, in French Somaliland.

The Italian communiqué said their armored columns, accompanied by bombing planes, were well advanced on the way to Berbera, having occupied Oadweina on Tuesday, as well as Hargeisa.

Keystone State Industries
Gain Momentum Under
National Defense Program

Calls for additional skilled help are coming from steel mills and coal mines, aircraft and precision instrument plants, shipyards, laboratories, and a variety of industries vital to national needs.

The commonwealth now has about 2,200,000 workers in private employment, compensation law—approximately one-fourth the total population, and 180,000 more employees than a year ago.

These figures do not take into account concurrent gains in "non-covered" groups, including domestic and agricultural, railroad and marine workers, and government employees.

The Department of Labor and Industry has just completed a survey, selecting 10 employment groups and 10 populous counties for special study to determine what has taken place in Pennsylvania's industrial reawakening within the last 12 months.

Bermuda Plans a Welcome for the Windsors

(From Page One)
instructed to reach Grassy Bay, outside Hamilton harbor, in time for the Windsors to land in Hamilton late this afternoon. It was the Duke's first visit to Bermuda since 1931 when he was Prince of Wales.

After coming ashore with their retinue the Windsors were to be greeted by Governor Major-General Denis Kirwan Bernard, his sister, Mrs. Hastings Brooke, and other officials. No official reception speech was planned but a military guard of 100 men was detailed to present the royal salute.

At government house, set in a 45-acre park and built of native coral as are almost all Bermuda houses, the Windsors will occupy a simply furnished suite of two bedrooms and baths on the south side of the 18-room mansion. The Duchess also will have the use of Mrs. Brooke's own sitting room.

Beyond a small cocktail party at government house, no special social functions were planned.

The ship on which the incident occurred was kept on the ground, and passengers were transferred to another plane.

Airline officials said no clues had been discovered which would throw light on the manner in which the girl was injured. They said her condition would not permit questioning.

Approval In Senate Forecast

 West Virginia, everybody I talked to, says he went away to avoid service in the armed forces. That's the doctrine of slackers.

"The senator from Indiana can search the gutters of West Virginia and find anything," Holt shouted, leaping to his feet. "Of course the senator would search there, feeling at home there."

Holt sat down, but Senator Lee (D-Okla.) arose to say that Holt had implied yesterday that Minton was intoxicated. This was unfounded, Lee declared, explaining that he had had Minton blow his breath in his face and that he smelled no liquor.

"I'm glad the senator from Oklahoma has become an expert on halitosis," Holt observed.

New Policy Toward

India Announced By British Government

 were bombers, the others chasers and escort planes.

But even as Britons cheered this new evidence of growing power of the RAF, many were concerned with developments in that hot, dry corner of northeast Africa where a British force, in the Kipling tradition, sought to block Italy's intended conquest of the continent.

British military authorities in London, conceding capture of Zeila in British Somaliland, expressed belief the Fascists forces would have a tough time taking Berbera, principal port of the country, and connected with Zeila by a 150-mile motor road. An Italian advance along this road could be placed under constant fire from air and land and perhaps from sea.

In Africa Italians held the port of Zeila, seized in a short march from French Somaliland, and aimed a principal drive across British Somaliland toward Berbera. The British said massed Libyan troops have not yet pushed across the frontier into the west Egyptian desert.

In France the new supreme court was called to its first session today at Riom with its No. 1 job of lengthy, far-reaching investigation to fix the blame for France's war blunders and to punish the guilty.

Hungary served notice on Rumania that she would be content with no less than 75 per cent of the Rumanian province of Transylvania in their territorial dispute in which Adolf Hitler is said to have advised Rumania to settle promptly.

Rumanian negotiations with Bulgaria over the latter's claims on southern Dobruja were scheduled to open today.

Rumania, cleaving close to the Nazi pattern, worked out new laws limiting the rights and activities of Jews and making them liable to special taxes.

 said that it would canvas the field of existing and prospective economic problems growing out of the European war and the application of proposed remedies.

Heading the list was the mounting surplus of commodities of some Latin American countries to which former European markets have been closed by the war.

Spearhead of the United States attack on this is the administration bill before congress to increase the lending power of the export-import bank by \$500,000,000.

"The people in the mills who were getting 30 and 35 cents an hour before, and are getting 75 and 80 cents an hour now, know who they are for. They're getting 60 to 80 per cent more now than they got under the Republicans."

James Declares Willkie To Make Visit in Pa.

(From Page One)
 delegation of more than 300 to Elwood, Ind., where Willkie will make his acceptance speech August 17.

Young Republicans of Pennsylvania have invited the candidate to speak before their state convention here in September and the state committee is seeking to arrange other suitable speaking engagements.

Colorado Springs, Colo., Aug. 8.—(AP)—Aides of Wendell L. Willkie said today he would ask former President Herbert Hoover and Alf M. Landon, the 1936 Republican nominee, to support his demand for broad amendments to the Hatch anti-politics law.

Willkie told his press conference yesterday the existing act should be amended to require the president, cabinet officers and all other now exempt officials to file sworn statements of their assets upon taking and leaving office.

He added that another desirable amendment would be a provision prohibiting any member of a family of an official from receiving compensation for representing clients before federal agencies.

The Republican nominee will have a luncheon conference with Landon here Tuesday. He will see Hoover in Denver sometime next week.

Campaign issues and strategy also will be discussed with Landon and Hoover, Willkie said.

If he is elected, Willkie said, he and members of his family will file statements of personal assets with the secretary of state regardless of whether the Hatch law is amended.

The Hatch law prohibits political activity by federal workers and state workers paid partly from federal funds.

Greatest Trial In History of France Starts

(From Page One)
 with: "Seeking out responsibilities directly incurred through foreign, internal and military policies that led to the situation in which France now finds herself."

Today's brief ceremony of installation turns over the tribunal to 62-year-old Pierre Caus, former criminal court president, twice wounded in the World War and twice cited for bravery.

Caus, as president of the supreme court, will have direct charge of the trials. His assistant, as vice-president, is 68-year-old Henri Lagarde, former counselor of the Court of Cassation.

One admiral and one general are among the justices who will delve into the political and military background of the catastrophe which began when France declared a state of war with Germany in September, 1939, and ended last June with the collapse of her military machine after a few weeks of heavy fighting.

The war-blame inquiry itself may not get under way for several weeks. Weeks and even months of judicial investigation may ensue before the defendants are officially named and specific charges entered against them.

The press, which has kept up the cry that those to blame must pay dearly, has heaped most of its criticisms on former Premier Edouard Daladier, the war-declaring.

NO FOREST FIRE MENACE
 Harrisburg, Aug. 8.—(P)—The long-delayed wet spring left a "good blanket of foliage" in state forests, permitting the trees to withstand a recent lengthy dry spell, G. Albert Stewart, secretary of forests, said today. Stewart saw no menace of widespread forest fires without rain.

Riding gossamer parachutes, young spiders have floated hundreds of miles.

AND IT'S FIRE-SAFE, TOO!

There is a heavy surface of crushed mineral granules on BARBER Genasco Brick-Like Siding. Both types stand guard against flying sparks and embers.

Bermuda Plans a Welcome for the Windsors

(From Page One)
 instructed to reach Grassy Bay, outside Hamilton harbor, in time for the Windsors to land in Hamilton late this afternoon. It was the Duke's first visit to Bermuda since 1931 when he was Prince of Wales.

After coming ashore with their retinue the Windsors were to be greeted by Governor Major-General Denis Kirwan Bernard, his sister, Mrs. Hastings Brooke, and other officials. No official reception speech was planned but a military guard of 100 men was detailed to present the royal salute.

At government house, set in a 45-acre park and built of native coral as are almost all Bermuda houses, the Windsors will occupy a simply-furnished suite of two bedrooms and baths on the south side of the 18-room mansion. The Duchess also will have the use of Mrs. Brooke's own sitting room.

Beyond a small cocktail party at government house, no special social functions were planned.

VETERANS CLUB REMODELING IS NOW UNDER WAY

Work has been started on the remodeling of the entire first floor of the Veterans of Foreign Wars building, Pennsylvania avenue, west, which is occupied by the Veterans' Social Club. When completed, the clubroom will be one of the finest in Warren.

The exterior will be improved by the building of a new brick front and eliminating the large plate glass windows. On the inside there will be new equipment and the entire room will be redecorated and refurnished.

One of the principal additions to the interior will be a balcony at the front of the clubroom, which will be used as an office and card room.

Leonard Goldberg, of Dunkin, N. Y., is general contractor for the work, which is expected to take about a month to complete.
